

NECK/SHOULDER SIZING BUSHINGS - SHORT ACTION CUSTOMS

300 PRC 0.335" SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Neck/Shoulder Sizing Bushings from Short Action Customs are made for use in their Modular Sizing Dies. These are cartridge specific sizing bushings that allow you to dial in the correct amount of bump while also fully sizing the neck of the cartridge. These new bushings address the inherent flaws with the old sizing system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 H900 stainless steel, then processed with the same heat treat as the Precision Resizing Dies. These neck/shoulder bushings have an incredibly smooth inside finish paired with an extremely slick external finish from heat treat.

NECK/SHOULDER SIZING BUSHINGS SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Neck/Shoulder Sizing Bushings from Short Action Customs. These bushings are designed for use with Modular Sizing Dies and provide an effective way to size the neck of your cartridges while ensuring safety during use. This guide will provide essential safety instructions and guidelines to ensure your safe and effective use of this product.

General Safety Guidelines

- Ensure that you read and understand all instructions before using the Neck/Shoulder Sizing Bushings.
- Always wear appropriate safety gear, including eye protection, when handling reloading equipment.
- Keep all components out of reach of children and pets to prevent accidental injury.
- Regularly inspect the bushings for signs of wear or damage before each use.
- Do not exceed the recommended specifications for your reloading equipment.
- Familiarize yourself with the proper handling and storage of reloading materials and tools.

Specific Safety Precautions for Use

- Use the bushings only with compatible Modular Sizing Dies as specified by the manufacturer.
- Avoid using damaged or worn bushings, as they may cause unsafe reloading conditions.
- Ensure that the work area is clean and free from obstructions to prevent accidents during the reloading process.
- Do not attempt to modify or alter the bushings in any way, as this may compromise their safety and effectiveness.
- Store the bushings in a dry, cool place to prevent corrosion and damage.
- Follow all local laws and regulations regarding the use and storage of reloading equipment and materials.

Instructions for Installation and Usage

1. Installation:

- Ensure that the Modular Sizing Die is clean and free from debris.
- Carefully insert the Neck/Shoulder Sizing Bushing into the die, ensuring it is seated properly.
- Tighten the die according to the manufacturer's specifications to secure the bushing in place.

2. Usage:

- Prepare your cartridge cases according to the reloading specifications.
- Place the cartridge case into the die and apply pressure to size the neck.
- Monitor the sizing process to ensure that the correct amount of bump is achieved without oversizing.
- After sizing, remove the cartridge case and inspect it for any signs of damage or improper sizing.
- Store the bushings safely after use, ensuring they are not exposed to moisture or extreme temperatures.

Disposal Instructions

- Dispose of any damaged or unusable bushings in accordance with local regulations.
- Do not throw bushings in regular household waste. Instead, check with local recycling centers for proper disposal methods.

- Ensure that all parts are disposed of in a manner that prevents harm to the environment or wildlife.

Contact Information for Further Support

For any questions or concerns regarding the Neck/Shoulder Sizing Bushings, please refer to the manufacturer's contact details provided with the product packaging. It is important to have access to support for any safety inquiries or product issues.

Conclusion

The Neck/Shoulder Sizing Bushings from Short Action Customs are designed to enhance your reloading experience while prioritizing safety. By following these guidelines, you can ensure a safe and effective reloading process. Always remember to stay informed about safety practices and to report any unsafe products or incidents to the appropriate authorities. Thank you for your commitment to safety.
