

NECK/SHOULDER SIZING BUSHINGS - SHORT ACTION CUSTOMS

300 PRC 0.336" SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

The Neck/Shoulder Sizing Bushings from Short Action Customs are made for use in their Modular Sizing Dies. These are cartridge specific sizing bushings that allow you to dial in the correct amount of bump while also fully sizing the neck of the cartridge. These new bushings address the inherent flaws with the old sizing system with all new internal bushing geometry designed to reduce neck runout while increasing loaded cartridge concentricity in the chamber. Made from 17-4 H900 stainless steel, then processed with the same heat treat as the Precision Resizing Dies. These neck/shoulder bushings have an incredibly smooth inside finish paired with an extremely slick external finish from heat treat.

Safety Instruction Guide for NECK/SHOULDER SIZING BUSHINGS

Introduction

Thank you for choosing the NECK/SHOULDER SIZING BUSHINGS from Short Action Customs. These bushings are designed specifically for use in Modular Sizing Dies, providing enhanced performance and precision for your reloading needs. This guide outlines essential safety instructions to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the bushings out of reach of children and pets to prevent accidental injury.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Regularly inspect the bushings for signs of wear or damage before each use.
- If you notice any defects or irregularities, discontinue use immediately and contact a qualified professional.

Specific Safety Precautions for Use

- Handle the bushings with care to avoid damaging the precision surfaces.
- Use the correct sizing bushing for your specific cartridge to ensure optimal performance.
- Avoid using excessive force when adjusting the sizing bushings to prevent damage.
- Ensure that your reloading setup is stable and secure before beginning the sizing process.
- Always work in a wellventilated area to prevent inhalation of any dust or particles generated during reloading.

Instructions for Installation and Usage

1. Installation:

- Ensure that your Modular Sizing Die is clean and free of debris.
- Select the appropriate sizing bushing for your cartridge (0.336" for 300 PRC).
- Insert the bushing into the die according to the manufacturer's instructions.
- Secure the bushing in place, ensuring it is properly seated.

2. Usage:

- Prepare your cartridge cases by cleaning and inspecting them for defects.
- Set up your reloading press according to the manufacturer's guidelines.
- Insert a cartridge case into the press and ensure it is correctly aligned with the sizing bushing.
- Apply a steady and even force to the press handle to size the neck of the cartridge.
- Repeat the process for each cartridge case, ensuring consistent application of force.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste.
- Contact local recycling centers for proper disposal methods for metal products.

Contact Information for Further Support

For any safety inquiries or additional support regarding the NECK/SHOULDER SIZING BUSHINGS, please refer to the manufacturer's website or contact their customer service for assistance.

By following these guidelines, you can ensure safe and effective use of the NECK/SHOULDER SIZING BUSHINGS. Your safety is our priority, and we appreciate your commitment to responsible reloading practices.
