

PRECISION RESIZING DIES - SHORT ACTION CUSTOMS 308 WINCHESTER PRECISION RESIZING DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The new Precision Resizing Dies are the culmination of years of shooting and reloading precision rifle cartridges. The design and execution of the Precision Resizing Dies are pure Short Action Customs innovation and demand for excellence. Each Precision Resizing Die is designed to size the cartridge shoulder a minimal amount to prevent over working the brass, yet allow for proper feeding and function. The base of the cartridge is sized more than a standard die to ensure brass that is "fired and tired" can still be used without any clicking or sticky bolt close due to enlarged base diameters. Important details such as neck/shoulder radius and neck diameters are carefully derived from the parent cartridge's body geometry ensuring that sized brass has the parent cartridge's true geometry. New Material offers increased surface finish and core strength compared to 416 Stainless and 12L14. New Heat Treat offers a surface hardness up to 80 Rockwell on the C scale, yet offers increased lubricity compared to standard heat treat and Salt Bath Nitriding/Meloinite. Die bodies are machined in two operations and are extremely true. Uses standard 7/8 x 14 external threads to secure to any standard reloading press. These dies use SAC's Neck/Shoulder Sizing Bushings. Since the Bushings control sizing of the Neck and Shoulder, these die bodies may work with similar cartridges within the same family. For example, the Creedmoor Die Body can be used for 22, 6mm, 25, and 6.5mm Creedmoor cartridges depending on the Neck/Shoulder Bushing purchased. Neck/Shoulder Bushings must be purchased separately.

Attributes

- Name: [SHORT ACTION CUSTOMS 308 WINCHESTER PRECISION RESIZING DIE](#)
- Manufacturer: [SHORT ACTION CUSTOMS](#)
- Product no.: 100050209
- Mfr. No.: SAC-MODWINDB
- Delivery weight: 0.417kg
- Shipping height: 57mm
- Shipping width: 108mm
- Shipping length: 337mm

Safety Instruction Guide for Precision Resizing Dies

Introduction

Thank you for choosing the Precision Resizing Dies from Short Action Customs. These dies are designed for precision reloading of .308 Winchester cartridges and are crafted with innovative technology to enhance your shooting experience. This safety instruction guide provides essential information to ensure the safe use of the product, compliance with EU General Product Safety Regulation (GPSR), and your overall satisfaction.

General Safety Guidelines

- **Product Safety:** Ensure that you use the Precision Resizing Dies according to the instructions provided in this guide to avoid any risks associated with improper handling.
- **Enhanced Recalls:** Be aware that in the unlikely event of a product recall, standardized notices will be issued. Always check for updates regarding recalls.
- **Online Shopping:** If purchased online, ensure that the platform meets safety requirements similar to physical stores.
- **Special Consumer Focus:** Extra precautions should be taken if the product is used by individuals who may be more vulnerable, such as children.
- **EU Contact Point:** For safety inquiries, ensure you have access to an EU-based contact for assistance.
- **Rapid Alerts:** Stay informed about product safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Read Instructions:** Always read and understand the instructions before use.
- **Wear Safety Gear:** Use appropriate safety gear, such as safety glasses and gloves, when handling reloading equipment.
- **Check for Damage:** Inspect the dies for any damage before use. Do not use if damaged.
- **Correct Usage:** Ensure that the dies are used with compatible cartridges as specified in the guide.
- **Avoid Overworking Brass:** Follow the sizing instructions carefully to prevent overworking the brass, which can lead to failure.
- **Proper Maintenance:** Regularly clean and maintain the dies to ensure optimal performance and longevity.
- **Store Safely:** Store the dies in a safe, dry place away from children and unauthorized users.

Instructions for Installation and Usage

1. Installation:

- Ensure that your reloading press is compatible with 7/8 x 14 external threads.
- Secure the Precision Resizing Die to the reloading press by threading it into place until snug. Do not overtighten.
- If using Neck/Shoulder Sizing Bushings, ensure they are properly inserted into the die before use.

2. Usage:

- Prepare your brass cartridges by cleaning them thoroughly.
- Insert the cartridge into the die, ensuring it is aligned correctly.
- Operate the reloading press to size the cartridge. Follow the die's specifications for the amount of sizing required.
- After sizing, remove the cartridge and inspect it for proper fit and function.
- Repeat the process for additional cartridges as necessary.

3. **PostUse Care:**

- Clean the dies after each use to remove any residue.
- Store the dies in their original packaging or a protective case to prevent damage.

Disposal Instructions

- **Dispose of Responsibly:** When the Precision Resizing Dies reach the end of their useful life, dispose of them in accordance with local regulations.
- **Recycling:** If possible, recycle materials to minimize environmental impact.

Contact Information for Further Support

For any questions or concerns regarding the Precision Resizing Dies, please refer to the manufacturer's website or customer service for assistance. Always ensure you have the product details at hand when seeking support.

By following these guidelines, you can ensure the safe and effective use of your Precision Resizing Dies. Thank you for prioritizing safety and quality in your reloading practices.
