

# GAS CONTROL REBUILD KITS - RIFLESPEED GAS CONTROL REBUILD KIT #4 0.957"

[Rifle Parts](#) > [Gas System Parts](#) > [Gas Pistons](#)

Rebuild your Riflespeed Gas Control with this OEM Rebuild Kit. Includes Plunger in your choice of sizes (see below), 17-7 stainless steel Wave Spring, Gas Tube Roll Pin, Barrel Cross Pin, and two Set Screws. Rebuild is recommended when replacing barrels or between 10,000 and 25,000 rounds, depending on your firing schedule. Sizes are based on the Plunger size included with each kit. Measure the plunger that is being replaced or refer to the Common Configurations and Settings chart on the Technical Documents page linked below to determine the correct size for your application.

# **Safety Instruction Guide for GAS CONTROL REBUILD KITS RIFLESPEED GAS CONTROL REBUILD KIT #4 0.957"**

## **Introduction**

Thank you for choosing the GAS CONTROL REBUILD KITS RIFLESPEED GAS CONTROL REBUILD KIT #4 0.957". This guide is designed to provide you with important safety information and instructions for the proper use, installation, and disposal of the product. Please read this guide carefully before using the product to ensure safe handling and operation.

## **General Safety Guidelines**

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any signs of damage before use.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves during installation and usage.
- Follow all local regulations and guidelines regarding the use of this product.
- Report any unsafe products or incidents to the relevant authorities.

## **Specific Safety Precautions for Use**

- Always ensure that the firearm is unloaded before performing any maintenance or installation.
- Do not exceed the recommended usage limits of the product as stated in the specifications.
- Be cautious of sharp edges and moving parts during installation.
- Avoid using the product in wet or humid conditions to prevent corrosion or malfunction.
- If you experience any difficulty during installation or usage, stop immediately and consult a qualified professional.

## **Instructions for Installation and Usage**

### **1. Preparation**

- Gather all necessary tools and components as listed in the product specifications.
- Ensure that your workspace is clean and free from any distractions.

### **2. Installation Steps**

- Remove the existing gas control component from your firearm.
- Measure the plunger being replaced to select the correct size from the kit.
- Install the new plunger into the gas control assembly.
- Insert the 177 stainless steel wave spring, ensuring it is seated properly.
- Use the gas tube roll pin and barrel cross pin to secure the assembly in place.
- Tighten the two set screws to ensure stability.

### **3. PostInstallation Checks**

- Inspect the installation to ensure all components are secure and properly aligned.
- Test the gas control function before firing the firearm.
- Make sure to follow all safety protocols when handling firearms.

## **Disposal Instructions**

- Dispose of any unused or damaged components in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste. Check with your local authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the contact point provided by the manufacturer or visit their official website for more information.

Thank you for your attention to these safety instructions. Your safety and the safe operation of your equipment are our top priorities.
