

OBERNDORF BOTTOM METALS - HAWKINS PRECISION OBERNDORF BOTTOM METAL LONG ACTION

[Rifle Parts](#) > [Receiver Parts](#) > [Bottom Metals](#)

Lightweight and premium quality, the Hawkins Precision Oberndorf Bottom Metal is a CNC-machined masterpiece. Our patented cantilever spring release ensures the floorplate will not open under heavy recoil for large magnum caliber rifles. Our Oberndorf bottom metal is extremely popular for lightweight, long range hunting rifle builds. Available for Remington 700 (and REM 700 clones) in short action and long action. Long action bottom metal weighs 2.6oz, short action weighs 2.5oz

Safety Instruction Guide for Hawkins Precision Oberndorf Bottom Metal

Introduction

Thank you for choosing the Hawkins Precision Oberndorf Bottom Metal. This product is designed for lightweight, longrange hunting rifle builds and is crafted with premium quality materials. To ensure your safety and the safe operation of the product, please read this guide carefully before installation and use.

General Safety Guidelines

- Always ensure that the firearm is unloaded before installing or handling the bottom metal.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the bottom metal for any signs of wear or damage.
- Familiarize yourself with local laws and regulations regarding firearm modifications and usage.
- In case of any uncertainty regarding the product's use, consult a qualified firearms expert.

Specific Safety Precautions for Use

- The bottom metal is designed for specific models. Ensure compatibility with your Remington 700 or REM 700 clones.
- Be cautious when handling the bottom metal during installation to avoid injury from sharp edges.
- Ensure that the cantilever spring release mechanism is functioning correctly before use.
- Avoid excessive force when operating the floorplate to prevent malfunction or damage.
- Use only recommended ammunition types that are compatible with your rifle and bottom metal.

Instructions for Installation and Usage

Installation Instructions

1. Prepare Your Workspace:

- Ensure you are in a clean, welllit area.
- Gather necessary tools (e.g., screwdriver, wrench).

2. Remove the Existing Bottom Metal:

- Unload the firearm and remove the magazine.
- Detach the existing bottom metal following the manufacturer's instructions.

3. Install the Hawkins Precision Oberndorf Bottom Metal:

- Align the new bottom metal with the stock.
- Secure it in place using the provided screws, ensuring they are tightened but not overtorqued.

4. Test the Mechanism:

- Check the cantilever spring release by operating the floorplate. It should open and close smoothly without obstruction.

Usage Instructions

- Always ensure the firearm is pointed in a safe direction when operating the floorplate.
- Regularly check the bottom metal for proper function and secure fit.

- If you experience any issues, cease use immediately and consult a firearms expert.

Disposal Instructions

- Dispose of any damaged or unusable parts in accordance with local regulations.
- Do not dispose of the bottom metal in regular household waste. Instead, seek out a recycling facility that accepts metal products.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Hawkins Precision Oberndorf Bottom Metal, please consult your local firearms expert or retailer.

Conclusion

Your safety is our priority. By following these guidelines, you can ensure the safe and effective use of the Hawkins Precision Oberndorf Bottom Metal. Thank you for your attention to these important safety instructions.
