# PRO 1000 Progressive Press Safety Instructions

## Introduction

Thank you for choosing the PRO 1000 Progressive Press by Lee Precision. This guide provides essential safety information and instructions to ensure the safe and effective use of your reloading equipment. Please read this manual thoroughly before using the product.

## General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Keep the reloading area clean and organized to prevent accidents.
- Store all materials, including primers and powder, in a safe and secure location away from children and unauthorized users.
- Wear appropriate safety gear, including safety glasses, when operating the press.
- Do not use the press if you are tired, distracted, or under the influence of drugs or alcohol.
- Regularly inspect your equipment for wear or damage. Replace any worn or damaged parts immediately.
- Ensure proper ventilation in your reloading area to avoid inhalation of dust or fumes.
- Follow local regulations regarding the safe handling and storage of reloading materials.

## Specific Safety Precautions for Use

- Ensure that the press is securely mounted to a stable work surface to prevent tipping or movement during operation.
- Only use the Lee 3 Hole Turret with this press. Other turrets may not be compatible and can cause safety hazards.
- Use only CCI and Remington primers as these are the only approved primers for use with the PRO 1000 Press.
- Do not overload the powder measure. Follow the recommended load data for your specific reloading components.
- Always check that a case is present in the shell plate before feeding primers and powder.
- Never look down the barrel or the case while reloading.
- Keep hands and tools clear of moving parts during operation to avoid injury.
- If a malfunction occurs, stop using the press immediately and consult the troubleshooting section of the manual.

## Instructions for Installation and Usage

### Installation

1. **Choose a Suitable Location:** Find a stable, flat surface for mounting the press. Ensure it is away from distractions and hazards.
2. **Mount the Press:** Use bolts to securely attach the press to the work surface. Ensure it is tightly fastened to prevent movement.
3. **Install the Turret:** Carefully place the Lee 3 Hole Turret onto the press, ensuring it fits snugly.
4. **Set Up the Shell Plate:** Attach the appropriate shell plate for your caliber to the press.
5. **Install the Powder Measure:** Attach the Pro AutoDisk powder measure according to the manufacturer's instructions.

### Usage

1. **Prepare Components:** Gather all necessary components, including cases, primers, powder, and projectiles.
2. **Check Equipment:** Ensure all parts are correctly installed and functioning before starting.
3. **Load Cases:** Place empty cases into the shell plate, ensuring they are positioned correctly.

4. **Add Primers:** Confirm that a case is present before feeding primers into the priming system.
5. **Measure Powder:** Set the desired powder charge using the Pro AutoDisk powder measure. Always doublecheck the charge weight.
6. **Seat Projectiles:** Follow the instructions for seating projectiles into the charged cases.
7. **Inspect Finished Rounds:** Check completed rounds for proper seating and overall quality before storage.

## Disposal Instructions

- Dispose of any unused or expired reloading materials in accordance with local regulations.
- Do not dispose of primers or powder in regular trash. Consult local hazardous waste disposal guidelines for safe disposal methods.
- Ensure that all materials are stored in a safe manner until they can be properly disposed of.

## Contact Information for Further Support

For any inquiries or concerns regarding the PRO 1000 Progressive Press, please refer to the manufacturer's website or customer service for assistance. Ensure you have the product details handy for faster support.

Thank you for prioritizing safety while using the PRO 1000 Progressive Press. Enjoy your reloading experience responsibly!
