PACESETTER RIFLE THREEEDIE SET Safety Instruction Guide

Introduction

Thank you for choosing the PACESETTER RIFLE THREEEDIE SET by LEE PRECISION. This guide provides essential safety instructions and guidelines to ensure the safe use of your reloading equipment. Please read and understand this document before using the product.

General Safety Guidelines

- Ensure you are familiar with the operation of your reloading press and other associated tools.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when reloading ammunition.
- Keep the reloading area clean and organized to prevent accidents.
- Store all reloading components, including powders and primers, out of reach of children and pets.
- Regularly check for recalls or safety alerts related to your reloading equipment and components.

Specific Safety Precautions for Use

- **Cartridge Safety:** Only use the PACESETTER RIFLE THREEEDIE SET for the specified cartridge, which is the 458 SOCOM. Using it for other cartridges can lead to hazardous situations.
- **Die Handling:** Handle dies with care to avoid damage. Ensure they are clean and free from debris before use.
- **Powder Handling:** Use only the recommended powders for the 458 SOCOM cartridge. Follow the manufacturer's guidelines for safe handling and storage.
- **Bullet Seating:** Ensure that the bullet seating die is adjusted correctly to avoid double charging or undercharging the cartridge.
- **Crimping:** Use the factory crimp die properly to secure the bullet in place without damaging it.
- **Children and Vulnerable Groups:** Keep all reloading components and tools out of reach of children and vulnerable individuals. Educate older children about the dangers of ammunition reloading.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is securely mounted on a stable surface.
- Gather all necessary components: Full Length Sizing Die, Bullet Seating Die, Factory Crimp Die, Universal Shell Holder, Powder Dipper, and Instructions/Load Data.

2. Installing the Dies:

- Start with the Full Length Sizing Die.
- Screw the die into the press until it is snug, then back it off slightly to allow for proper operation.
- Follow the same procedure for the Bullet Seating Die and Factory Crimp Die, ensuring they are securely installed.

3. Using the Dies:

- **Full Length Sizing:** Insert an empty cartridge case into the Universal Shell Holder and run it through the sizing die to resize the case.
- **Bullet Seating:** After charging the case with powder, place a bullet on top and run it through the bullet seating die to seat the bullet to the desired depth.

- **Crimping:** Finally, use the Factory Crimp Die to crimp the bullet into the case securely.

4. Cleaning Up:

- After use, clean the dies and reloading area to prevent contamination and maintain equipment longevity.
- Dispose of any unused powder and spent primers according to local regulations.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local hazardous waste disposal regulations.
- Ensure that all empty containers are recycled or disposed of properly to avoid environmental hazards.

Contact Information for Further Support

For safety inquiries or support, please refer to the manufacturer's website or customer service. It is important to have access to reliable information regarding the safe use of your reloading equipment.

By following these guidelines, you can ensure a safe and enjoyable reloading experience with your PACESETTER RIFLE THREEDIE SET. Always prioritize safety and stay informed about best practices in ammunition reloading.
