

LEE COLLET 2-DIE NECK SIZER SETS - LEE PRECISION 7MM-08 REM COLLET 2-DIE NECK SIZER SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

There is no loading system that will load more accurate ammunition than Lee Collet Dies. A collet squeezes the case neck against a precision mandrel for a perfect fit with minimum run-out. No lube case is needed. Cases last ten times longer, so the savings on only 35 cases will pay for the dies. Maximum accuracy is usually achieved by seating the bullet out far enough to touch or almost touch the rifling. This provides the shot start pressure normally supplied by the crimp. That's why a dead length bullet seater is included to complete the most accurate reloading system ever made. These dies size only the neck to preserve the perfect fit of fire forming. Only reload cases that have been fired in your gun. Not recommended for autoloaders, slide or lever action guns.

Attributes

- Name: [LEE PRECISION 7MM-08 REM COLLET 2-DIE NECK SIZER SET](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053178
- Mfr. No.: 90723

LEE COLLET 2DIE NECK SIZER SET Safety Instruction Guide

Introduction

Thank you for choosing the LEE COLLET 2DIE NECK SIZER SET for your reloading needs. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure safe handling and operation of all reloading equipment.
- Always use the product as intended and follow all instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or incidents to the appropriate authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Only use the LEE COLLET 2DIE NECK SIZER SET with cases that have been fired in your specific firearm.
- Do not use these dies with autoloaders, slide, or lever action guns.
- Always inspect your reloading equipment for wear or damage before use.
- Follow recommended reloading practices to avoid overloading or underloading ammunition.
- Wear safety glasses and protective gear when reloading to prevent injury from accidental discharge or debris.
- Ensure your workspace is wellventilated and free from distractions.

Instructions for Installation and Usage

1. Setup:

- Securely mount the dies in your reloading press according to the manufacturer's instructions.
- Adjust the die height to ensure proper sizing of the case neck.

2. Reloading Process:

- Place the fired case into the shell holder of your reloading press.
- Operate the press to insert the case into the collet die, ensuring the case neck is properly aligned.
- Squeeze the case neck against the precision mandrel for a perfect fit.
- Remove the case and inspect it for proper sizing and any signs of damage.

3. Seating the Bullet:

- Use a dead length bullet seater to achieve maximum accuracy by seating the bullet out to touch or almost touch the rifling.
- Check the overall length of the cartridge to ensure it meets your firearm's specifications.

4. Final Inspection:

- After reloading, inspect each round for any defects or abnormalities.
- Store completed ammunition in a safe, dry place away from children and unauthorized users.

Disposal Instructions

- Dispose of any damaged or unusable reloading components according to local regulations.
- Do not throw away loaded ammunition in regular trash; follow local guidelines for hazardous waste disposal.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the contact details provided on the product packaging or the manufacturer's website.

By following these guidelines, you can ensure a safe and effective reloading experience with the LEE COLLET 2DIE NECK SIZER SET. Always prioritize safety and compliance with local laws and regulations. Thank you for your attention to these important safety instructions.
