Safety Instruction Guide for PISTOL CARBIDE 3 DIE SETS LEE PRECISION 32 AUTO CARBIDE 3DIE SET

Introduction

Thank you for choosing the PISTOL CARBIDE 3 DIE SETS from LEE PRECISION. This guide provides essential safety instructions to ensure the safe and effective use of your die set. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment before use.
- Always wear appropriate safety gear, including safety glasses, when handling reloading materials.
- Keep the work area clean and free from clutter to avoid accidents.
- Store all reloading components, including dies, powders, and primers, in a secure and dry location away from children and unauthorized users.
- Regularly inspect your equipment for wear or damage. Do not use damaged components.
- Follow all local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- **Carbide Dies:** These dies do not require sizing lube. Avoid using any sizing lube as it may create a safety hazard.
- **Handling Powders:** Always use powders in a wellventilated area. Avoid inhalation and contact with skin.
- **Bullet Seating:** Ensure that the bullet seating die is properly adjusted to avoid excessive pressure, which can lead to dangerous situations.
- **Shell Holder:** Always ensure that the shell holder is securely attached before use to prevent accidents.
- **Distractions:** Avoid distractions while reloading. Focus is essential for safe operation.

Instructions for Installation and Usage

1. Unboxing:

- Carefully remove the die set from its packaging.
- Check that all components are included: Carbide Full Length Sizing Die, Bullet Seating Die, Powder Thru Expanding Die, Shell Holder, Powder Dipper, and Instructions/Load Data.

2. Installation:

- Securely mount the dies in your reloading press according to the manufacturer's instructions.
- Ensure that the dies are tightened properly to prevent movement during operation.

3. Setting Up:

- Adjust the Full Length Sizing Die to the appropriate size for your cartridge (32 Auto).
- Set the Powder Thru Expanding Die to the desired powder charge level.
- Adjust the Bullet Seating Die to ensure proper bullet depth.

4. Reloading Process:

- Begin by sizing the brass cases using the Full Length Sizing Die.

- Expand the case mouth using the Powder Thru Expanding Die.
- Charge the case with powder using the Powder Dipper.
- Seat the bullet using the Bullet Seating Die, ensuring it is properly aligned.

5. Final Checks:

- Inspect each completed round for consistency and safety.
- Store completed ammunition in a safe and secure manner.

Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Never dispose of reloading materials in regular household waste.
- Contact local waste management authorities for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the PISTOL CARBIDE 3 DIE SETS, please contact the manufacturer or refer to the product's official website for support and additional resources.

Conclusion

Following these safety instructions will help ensure a safe and enjoyable reloading experience with your PISTOL CARBIDE 3 DIE SETS. Always prioritize safety and adhere to best practices in ammunition reloading. Thank you for choosing LEE PRECISION.
