Safety Instruction Guide for PISTOL CARBIDE 3 DIE SETS LEE PRECISION 45 GAP CARBIDE 3DIE SET

Introduction

Thank you for choosing the PISTOL CARBIDE 3 DIE SETS LEE PRECISION 45 GAP CARBIDE 3DIE SET. This product is designed to provide you with a reliable and efficient reloading experience. However, it is important to follow safety guidelines to ensure safe use and to minimize any potential risks associated with reloading ammunition.

General Safety Guidelines

- Always read and understand all instructions before using the product.
- Keep this product out of reach of children and unauthorized users.
- Ensure that your workspace is clean, organized, and wellventilated.
- Use personal protective equipment (PPE) such as safety glasses and gloves while handling materials.
- Do not use the die set for any purpose other than intended.
- Regularly inspect the die set for any signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that you are using the correct caliber and specifications for your reloading needs.
- Always doublecheck the load data against reliable sources before proceeding with reloading.
- Avoid overcharging or undercharging your ammunition.
- Never leave the reloading process unattended.
- Be cautious of static electricity when handling powders and primers.
- Store components such as powders and primers in a cool, dry place, away from direct sunlight and heat sources.
- If you experience any malfunctions during use, cease operation immediately and consult the instructions.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is securely mounted to a stable surface.
- Gather all necessary components: Carbide Full Length Sizing Die, Bullet Seating Die, Powder Thru Expanding Die, Shell Holder, Powder Dipper, and Instructions/Load Data.

2. Installation:

- Install the Carbide Full Length Sizing Die into the reloading press according to the manufacturer's instructions.
- Follow the same process for the Bullet Seating Die and Powder Thru Expanding Die.
- Ensure that each die is tightened securely to prevent movement during use.

3. Reloading Process:

- Start by resizing your brass cases using the Carbide Full Length Sizing Die.
- Use the Powder Thru Expanding Die to expand the case mouth for bullet seating.
- Measure and dispense the appropriate powder charge using the Powder Dipper.
- Finally, seat the bullet using the Bullet Seating Die, ensuring proper depth and alignment.

4. **PostUse:**

- Clean and store the die set in a safe place after use.
- Keep all components organized and away from moisture.

Disposal Instructions

- Dispose of any unused or expired reloading components in accordance with local regulations.
- Do not dispose of hazardous materials in regular trash. Check local guidelines for proper disposal methods.
- Recycle packaging materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the product, please refer to the manufacturer's contact details provided in the product packaging or user manual.

By adhering to these safety guidelines and instructions, you will help ensure a safe and effective reloading experience with your PISTOL CARBIDE 3 DIE SETS LEE PRECISION 45 GAP CARBIDE 3DIE SET. Thank you for your attention to safety.
