

# HANDGUN FACTORY CRIMP DIES - LEE PRECISION 357 SIG FACTORY CRIMP DIE

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

The Lee Bottle Neck Handgun Factory Crimp Die incorporates a collet to apply a rifle type crimp to the case. Makes these very difficult to crimp cartridges a delight to reload. Bullets do not need a crimp groove, as the collet is so powerful it will form one.

# **Safety Instruction Guide for HANDGUN FACTORY CRIMP DIES LEE PRECISION 357 SIG FACTORY CRIMP DIE**

## **Introduction**

Thank you for choosing the Lee Precision 357 SIG Factory Crimp Die. This product is designed to provide a reliable and effective crimp for your handgun cartridges. To ensure safe and effective use, please read this safety instruction guide carefully and follow all instructions.

## **General Safety Guidelines**

- Ensure that the product is used only for its intended purpose as described in the product specifications.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before use.
- Follow all applicable laws and regulations regarding ammunition reloading in your jurisdiction.

## **Specific Safety Precautions for Use**

- Be aware that improper use of the crimp die can lead to ammunition that is unsafe to fire.
- Do not attempt to modify or alter the crimp die in any way.
- Always ensure that the die is securely attached to the reloading press before use.
- Avoid using excessive force when crimping cartridges; this can lead to damage or malfunction.
- Store the crimp die in a dry, cool place when not in use to prevent corrosion and damage.

## **Instructions for Installation and Usage**

### **1. Installation:**

- Ensure that your reloading press is turned off and unplugged before installation.
- Remove any existing die from the press and clean the die mounting area.
- Insert the Lee Precision 357 SIG Factory Crimp Die into the die holder of your reloading press.
- Tighten the locking ring to secure the die in place.

### **2. Usage:**

- Prepare your cartridges according to the manufacturer's specifications.
- Place the cartridge case into the shell holder of the reloading press.
- Pull the handle of the press to raise the cartridge into the crimp die.
- Observe the crimping process; the collet will apply a crimp to the case.
- Once the crimping is complete, lower the handle to remove the cartridge.

### **3. Post Use:**

- After completing your reloading session, clean the die to remove any residue.
- Store the die in its original packaging or a protective case to prevent damage.

## **Disposal Instructions**

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the product in regular household waste; check for specific recycling programs for metal components.

## **Contact Information for Further Support**

For any inquiries regarding safety or product issues, please contact your local distributor or manufacturer. Be sure to have your product information available for reference.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with the Lee Precision 357 SIG Factory Crimp Die. Always prioritize safety and adhere to best practices in ammunition reloading. Thank you for your attention to these important guidelines.
