

6 CAVITY HANDGUN MOULDS - LEE PRECISION 44 CALIBER (0.429") 200GR FN 6-CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

The Lee 6 Cavity Handgun moulds are made for heavy duty volume production. Moulds and blocks have steel bushings and alignment pins for lasting precision. Price includes a cam operated sprue plate to eliminate the pounding common to ordinary moulds. The sprue plate is hard anodized and held down with wave washers at each end. All Lee mould blocks are made from aluminum because of its exceptional moulding qualities. All mould cavities are CNC machined for unmatched roundness and size control. Does not include handles.

Attributes

- Name: [LEE PRECISION 44 CALIBER \(0.429"\) 200GR FN 6-CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053346
- Mfr. No.: 90428
- Bullet Style: -
- Bullet Weight (Grains): 200
- Caliber: 44 Caliber
- Cavities: 6
- Diameter (in): 0.429
- Delivery weight: 0.522kg
- Shipping height: 48mm
- Shipping width: 114mm
- Shipping length: 340mm
- UPC: 734307904289

Safety Instruction Guide for Lee 6 Cavity Handgun Moulds

Introduction

Thank you for choosing the Lee 6 Cavity Handgun Moulds for your casting needs. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read and follow all instructions carefully to minimize risks and enhance your experience.

General Safety Guidelines

- Ensure safe use of the mould by following all instructions provided in this guide.
- Always use the mould in a wellventilated area to avoid inhaling fumes from heated materials.
- Keep the mould and all related equipment out of reach of children and pets to prevent accidents.
- Regularly inspect the mould for any signs of wear or damage before use.
- If you notice any defects or malfunctions, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- **Heat Safety:** The mould will become extremely hot during use. Always use heatresistant gloves when handling the mould.
- **Burn Prevention:** Avoid direct skin contact with the mould and molten materials to prevent burns.
- **Proper Ventilation:** Ensure that your workspace is wellventilated to disperse any fumes released during the melting process.
- **Material Handling:** Use only approved materials for casting to prevent chemical reactions or hazards.
- **Tool Safety:** Use appropriate tools and techniques when manipulating the mould to avoid injury.

Instructions for Installation and Usage

1. Setup:

- Place the mould on a stable, heatresistant surface.
- Ensure that the mould is clean and free from debris before use.

2. Heating:

- Preheat the mould according to the manufacturer's recommendations.
- Use a reliable heat source and monitor the temperature closely.

3. Pouring:

- Carefully pour the molten material into the mould cavities, avoiding overfilling.
- Allow the material to cool and solidify completely before removing from the mould.

4. Cleaning:

- After use, allow the mould to cool completely.
- Clean the mould with a soft cloth or brush; do not use abrasive materials that can damage the surface.

5. Storage:

- Store the mould in a dry, cool place when not in use.
- Ensure that it is protected from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any waste materials in accordance with local regulations.
- Do not throw the mould or any components in regular trash if they are damaged; follow local hazardous waste guidelines.

Contact Information for Further Support

For any safety inquiries or assistance regarding the Lee 6 Cavity Handgun Moulds, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable experience with your Lee 6 Cavity Handgun Moulds. Always prioritize safety and adhere to the guidelines established in this document. Thank you for your attention to safety!
