

# 6 CAVITY HANDGUN MOULDS - LEE PRECISION 45 CALIBER (0.452") 200GR FN 6-CAVITY MOLD

[Reloading](#) > [Bullet Casting](#) > [Casting Moulds](#) > [Handgun Moulds](#)

The Lee 6 Cavity Handgun moulds are made for heavy duty volume production. Moulds and blocks have steel bushings and alignment pins for lasting precision. Price includes a cam operated sprue plate to eliminate the pounding common to ordinary moulds. The sprue plate is hard anodized and held down with wave washers at each end. All Lee mould blocks are made from aluminum because of its exceptional moulding qualities. All mould cavities are CNC machined for unmatched roundness and size control. Does not include handles.

## Attributes

- Name: [LEE PRECISION 45 CALIBER \(0.452"\) 200GR FN 6-CAVITY MOLD](#)
- Manufacturer: [LEE PRECISION](#)
- Product no.: 100053353
- Mfr. No.: 90697
- Bullet Weight (Grains): 200
- Caliber: 45 Caliber
- Cavities: 6
- Diameter (in): 0.452
- Delivery weight: 0.522kg
- Shipping height: 48mm
- Shipping width: 110mm
- Shipping length: 340mm
- UPC: 734307906979

# 6 CAVITY HANDGUN MOULDS LEE PRECISION 45 CALIBER (0.452") 200GR FN 6CAVITY MOLD Safety Instruction Guide

## Introduction

Thank you for choosing the Lee 6 Cavity Handgun Mould. This product is designed for heavyduty volume production of handgun bullets. To ensure safe and effective use, please read this safety instruction guide thoroughly before using the mould.

## General Safety Guidelines

- Always follow safety instructions to minimize risks when using the mould.
- Ensure the mould is used only for its intended purpose, which is the production of handgun bullets.
- Keep the mould out of reach of children and vulnerable individuals.
- Regularly inspect the mould for any signs of damage or wear. Do not use if damaged.
- Store the mould in a dry and secure location when not in use.
- Report any accidents or unsafe conditions to the appropriate authorities.

## Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling hot materials.
- Ensure that the workspace is wellventilated to avoid the accumulation of fumes.
- Be cautious of hot surfaces; the mould can become extremely hot during use.
- Avoid contact with molten lead or other materials being used with the mould.
- Follow the manufacturer's guidelines for safe temperatures and handling procedures.
- Do not exceed the recommended weight or volume of materials specified by the manufacturer.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary materials and tools before starting.
- Ensure that the workspace is clean and organized.

### 2. Setting Up the Mould:

- Secure the mould in a stable position on a suitable work surface.
- Make sure that the camoperated sprue plate is functioning correctly.

### 3. Using the Mould:

- Preheat the mould according to the manufacturer's specifications.
- Pour the molten material into the cavities of the mould carefully.
- Allow the material to cool and solidify completely before removing the bullets.
- Use caution when opening the mould, as residual heat may still be present.

### 4. PostUse Care:

- Clean the mould after each use to maintain its performance and longevity.
- Store the mould in a safe and dry place to prevent corrosion and damage.

## **Disposal Instructions**

- Dispose of any leftover materials in accordance with local regulations.
- Do not dispose of the mould in regular household waste if it is damaged. Follow local guidelines for hazardous waste disposal.

## **Contact Information for Further Support**

For any inquiries regarding safety or product issues, please refer to the manufacturer's contact information provided with the product.

By following these safety instructions, you can ensure a safe and effective experience with your Lee 6 Cavity Handgun Mould. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
