Safety Instruction Guide for STEEL 3DIE PISTOL DIE SETS LEE PRECISION .357 SIG FULL LENGTH SIZING 3DIE SET STEEL

Introduction

Thank you for choosing the Lee Steel 3DIE Pistol Die Set for your reloading needs. This guide provides important safety instructions and operational guidelines to ensure safe usage of the product. Please read this manual carefully before using the die set.

General Safety Guidelines

- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Keep the work area clean and organized to prevent accidents.
- Ensure that children and pets are kept away from the reloading area.
- Read and understand all instructions and warnings before using the product.
- Do not use the die set for any purpose other than intended.
- Always check for damage or wear on the dies before usage.
- Follow local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- **Lubrication:** Since these dies are made of steel, cases must be lubricated before sizing to prevent sticking.
- **Use the correct cartridge:** Ensure that you are using the die set specifically designed for the .357 SIG cartridge.
- **Avoid distractions:** Focus on the reloading process and avoid multitasking to ensure safety.
- **Inspect the workspace:** Ensure that the workspace is free from any obstructions or hazards before starting.
- **Store the die set properly:** After use, store the dies in a safe, dry place to prevent rust and damage.

Instructions for Installation and Usage

1. Unpacking the Set:

- Carefully remove the die set from the packaging.
- Check that all components are included: Full Length Sizing Die, Bullet Seating Die, Powder Through Expanding Die, Universal Shell Holder, Powder Dipper, and Instructions/Load Data.

2. Setting Up the Dies:

- Install the Full Length Sizing Die into your reloading press according to the manufacturer's instructions.
- Follow the same procedure for the Bullet Seating Die and Powder Through Expanding Die.

3. Preparing Cases:

- Clean and inspect your brass cases before reloading.
- Apply appropriate lubrication to the cases to prevent sticking during sizing.

4. Reloading Process:

- Follow the provided load data for accurate powder measurements.
- Use the Powder Dipper to measure the correct amount of powder for each cartridge.
- Seat the bullets using the Bullet Seating Die according to your desired specifications.

5. Final Inspection:

- After reloading, inspect each cartridge for proper seating and overall quality.
- Store completed ammunition in a safe manner, ensuring it is clearly labeled.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Recycle packaging materials where possible to minimize environmental impact.

Contact Information for Further Support

For any inquiries regarding the safety and usage of the Lee Steel 3DIE Pistol Die Set, please reach out to the appropriate support channels provided by the manufacturer.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your Lee Steel 3DIE Pistol Die Set. Always prioritize safety and stay informed about the best practices in ammunition reloading.
