The Second Edition of MODERN RELOADING is a summary of a lifetime of experience. No matter how knowledgeable you are, you will find new and interesting information in this book. It's a reference book you will keep forever. Over 28,000 Loads covering 167 cartridges in a new, larger, easier to read format, with velocities for starting loads. This is the best kind of load data--it is supplied by the powder companies. New, larger, easier to read format with computer rendered and dimensioned drawings. Cartridges tabbed for quick reference. Exclusive pressure and velocity factors enable you to accurately calculate pressure and velocity for reduced loads. An absolute necessity for cast bullet shooting. A never before published in depth analyses of current load data. It gives you an insight into the effects of reducing or increasing a charge.

Safety Instruction Guide

Introduction

Welcome to the safety instruction guide for the MODERN RELOADING MANUAL 2ND EDITION by LEE PRECISION. This manual is designed to provide you with essential safety information and guidelines to ensure the safe and effective use of the product. Please read this guide thoroughly before using the manual and keep it for future reference.

General Safety Guidelines

- Always handle all reloading components with care to avoid accidents.
- Ensure you are familiar with the specific laws and regulations regarding reloading in your country or region.
- Use the manual in a wellventilated area to minimize exposure to powder fumes and other substances.
- Keep all reloading materials out of reach of children and unauthorized individuals.
- Always wear appropriate safety gear, such as safety glasses and gloves, when handling reloading materials.
- Be aware of potential hazards associated with reloading, including but not limited to:
 - Fire hazards from flammable materials
 - Explosion risks from improper handling or storage of gunpowder
 - Injury from handling sharp tools or components

Specific Safety Precautions for Use

- Read all sections of the manual carefully before starting your reloading process.
- Always doublecheck measurements and data for each load to ensure accuracy.
- Store all reloading components in a cool, dry place, away from direct sunlight and heat sources.
- Never exceed the recommended load data provided in the manual.
- If you are unsure about any aspect of reloading, consult a knowledgeable individual or seek professional guidance.
- Keep a first aid kit accessible in your reloading area in case of accidents.
- Regularly inspect your reloading equipment for wear and damage. Replace any worn or damaged components immediately.

Instructions for Installation and Usage

- Ensure your reloading workspace is clean and organized before starting.
- Gather all necessary materials and tools, including:
 - Reloading manual
 - Reloading press
 - Dies
 - Brass cases
 - Primers
 - Gunpowder
 - Bullets
 - Safety gear (gloves, glasses)
- Follow these steps for safe reloading:
 1. Set up your reloading press according to the manufacturer's instructions.
 2. Clean brass cases thoroughly to remove any dirt or debris.
 3. Inspect each case for signs of damage or wear.
 4. Insert the appropriate die into the reloading press.

5. Follow the load data provided in the manual to measure and add gunpowder to each case.
6. Insert primers carefully, ensuring they are seated properly.
7. Seat bullets to the correct depth as specified in the manual.
8. Store completed ammunition in a secure container, labeled with the load data.

Disposal Instructions

- Dispose of any unused or expired reloading components according to local regulations.
- Never dispose of gunpowder or primers in regular trash. Contact your local waste management facility for proper disposal methods.
- Keep all hazardous materials out of reach of children and pets.
