

CASE CONDITIONING KIT - LEE PRECISION CASE CONDITIONING KIT

[Reloading](#) > [Case Preparation](#) > [Case Mouth Chamfering](#)

All In One Kit Preps Brass For Reloading

The Lee Case Conditioning Kit includes a cutter with lock stud, chamfer tool, and primer pocket cleaner to prep brass for reloading. The all-inclusive Lee Case Conditioning Kit works on small and large primer pockets, while the cutter and lock stud are for use with Lee's case length gauges (sold separately). Chamfer tool chamfers and deburrs inside and outside of case necks. Double ended primer pocket cleaner works with both large and small primer pockets. Cutter and lock stud can be used by hand or with electric drill. Hardened steel construction. The Lee Case Conditioning Kit contains everything you need to get your brass prepped for reloading.

Lee Precision Case Conditioning Kit Safety Instruction Guide

Introduction

Thank you for choosing the Lee Precision Case Conditioning Kit. This guide provides important safety instructions to ensure the safe and effective use of the product. Please read this guide thoroughly before using the kit.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose of preparing brass for reloading.
- Keep the kit out of reach of children and vulnerable individuals.
- Always inspect the tools for any damage or wear before use. Do not use damaged tools.
- Follow all local laws and regulations related to reloading and ammunition.
- Wear appropriate personal protective equipment (PPE) such as safety goggles and gloves while using the kit.
- Store the kit in a dry and secure location when not in use.

Specific Safety Precautions for Use

• Cutter and Lock Stud:

- Use the cutter and lock stud only with Lee's case length gauges, as specified in the product instructions.
- Ensure that the cutter is securely attached to the lock stud before use.
- Avoid placing fingers near the cutting area while in operation.

• Chamfer Tool:

- Use the chamfer tool carefully to avoid injury from sharp edges.
- Always chamfer and deburr the inside and outside of case necks in a controlled manner.

• Primer Pocket Cleaner:

- Use the doubleended primer pocket cleaner with caution to prevent injury.
- Ensure you are using the correct end for either large or small primer pockets to avoid damage.

• Electric Drill Use:

- If using an electric drill, ensure that it is compatible with the cutter and lock stud.
- Follow the manufacturer's instructions for the drill to avoid accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all components of the Lee Case Conditioning Kit: cutter, lock stud, chamfer tool, and primer pocket cleaner.
- Ensure your work area is clean and welllit.

2. Using the Cutter and Lock Stud:

- Attach the cutter to the lock stud.
- If using an electric drill, insert the lock stud into the drill.
- Position the case length gauge securely and insert the brass casing into the cutter.
- Activate the drill or manually turn the cutter to trim the brass casing to the desired length.

3. Chamfering:

- Use the chamfer tool to chamfer the inside and outside of the case necks.
- Apply light pressure while rotating the tool to achieve a smooth finish.

4. Cleaning Primer Pockets:

- Select the appropriate end of the doubleended primer pocket cleaner for your brass casing.
- Insert the cleaner into the primer pocket and rotate gently to remove debris.

5. PostUsage:

- Clean the tools with a soft cloth after use to remove any brass residue.
- Store all components in a safe location.

Disposal Instructions

- Dispose of any used or damaged components of the kit in accordance with local regulations.
- Do not dispose of the kit in regular household waste. Check for local recycling programs for metal and plastic.

Contact Information for Further Support

For any safety inquiries or assistance regarding the Lee Precision Case Conditioning Kit, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for using the Lee Precision Case Conditioning Kit. Always prioritize safety and follow the guidelines provided in this instruction manual. Happy reloading!
