

# GRIP TAPE FOR GLOCK® 43 - TALON GRIPS INC GRIP RUBBER BLACK FOR GLOCK 43

[Handgun Parts](#) > [Grip Parts](#) > [Grips](#)

## Optimize Your G43 Grip

The Glock G43 is a great pistol for concealed carry, thanks to its small size and thin profile. However, these two qualities mean that users aren't able to obtain as solid of a grip on this pistol as they can on full-size guns. The Talon Glock G43 Grip Tape enhances the texture on this pocket pistol. The Talon Glock G43 Grip Tape is a non-permanent addition to your gun that anchors into place, thanks to a solid adhesive. The tape covers both side panels, thumb rests, backstrap and beneath the trigger guard, ensuring that users have all of the principal grip areas enhanced. Comes in rubber and granulate textures Color: black Features cutouts for controls The Talon Glock G43 Grip Tape also features a "GLOCK" graphic, as well as Talon's "T."

## Attributes

# Safety Instruction Guide for GRIP TAPE FOR GLOCK® 43

## Introduction

Thank you for choosing the Talon Grip Tape for your Glock® 43. This product is designed to enhance your grip and improve the handling of your firearm. It is important to follow the safety instructions outlined in this guide to ensure safe usage and compliance with EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the grip tape is installed correctly to avoid any slippage during use.
- Regularly inspect the grip tape for wear and tear. Replace it if it shows signs of damage.
- Keep the grip tape clean and free from debris to maintain optimal grip performance.
- Store your firearm in a secure location away from children and unauthorized users.
- Always treat your firearm as if it is loaded, even when it is not.
- Familiarize yourself with local laws and regulations regarding firearm ownership and use.

## Specific Safety Precautions for Use

- The grip tape is designed for use with Glock® 43 models only. Do not attempt to use it on other firearms.
- Ensure that the firearm is unloaded before applying the grip tape.
- Avoid using the grip tape in extreme weather conditions, as this may affect the adhesive properties.
- If the grip tape begins to peel or lift, cease use of the firearm until the issue is resolved.
- Do not apply any additional substances or coatings on top of the grip tape, as this may compromise its effectiveness.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is unloaded.
- Clean the grip surface of the Glock® 43 with rubbing alcohol to remove any oils or residues.

### 2. Application

- Carefully peel the backing from the grip tape.
- Align the tape with the grip of the firearm, ensuring it covers both side panels, thumb rests, backstrap, and beneath the trigger guard.
- Press down firmly on the grip tape to ensure proper adhesion.

### 3. Finalization

- Allow the grip tape to set for at least 24 hours before use to ensure the adhesive has fully bonded.
- Check for any bubbles or inconsistencies. Smooth out any imperfections with a soft cloth.

### 4. Usage

- When using the firearm, ensure a firm grip on the enhanced areas covered by the grip tape.
- Regularly check the grip tape during usage to ensure it remains securely attached.

## Disposal Instructions

- Dispose of any unused or damaged grip tape in accordance with local regulations.
- Do not incinerate the grip tape, as it may release harmful substances.
- Consider recycling options for the packaging materials where applicable.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the Talon Grip Tape, please refer to the manufacturer's official website or customer service channels. Ensure that you have your product details on hand for assistance.

By following these safety instructions, you can ensure a safer and more enjoyable experience with your Talon Grip Tape for Glock® 43. Always prioritize safety and responsible firearm handling.
