[Rifle Parts](#) > [Receiver Parts](#) > [Magazine Parts](#) > [Magazine Releases](#)

Forever the AR-15 has been a right-handed person's tool. With Ambidextrous controls evolving, it's becoming more of a tool that everyone can use, even left-handed shooters! This Ambidextrous Mag Catch works in place of a standard mag catch to allow left-handed shooters drop their mag without having to switch to your right hand for the mag release. Easy drop-in replacement, and blends into the style of any AR. Compatible with all AR15/M16 rifles. Installs the same as factory mag catch. Works with original (and aftermarket) mag release button.
