# ULTRALIGHT 34MM SPR Scope Mount Safety Instructions

## Introduction

Thank you for choosing the ULTRALIGHT 34MM SPR Scope Mount by AERO PRECISION. This product is designed to enhance your shooting experience while ensuring safety and reliability. Please read this safety instruction guide carefully to understand how to use the scope mount safely and effectively.

## General Safety Guidelines

- Ensure that the scope mount is used only for its intended purpose as specified in the product description.
- Always handle firearms and related accessories with care and follow all local laws and regulations regarding firearm safety.
- Keep the product out of reach of children and unauthorized users to prevent accidents.
- Regularly inspect the scope mount for any signs of wear or damage before each use.
- If you notice any defects or irregularities, discontinue use immediately and consult a qualified professional.

## Specific Safety Precautions for Use

- **Eye Protection:** Always wear appropriate eye protection when using firearms equipped with a scope mount.
- **Recoil Management:** Be aware that the scope mount is designed to withstand recoil, but improper installation or excessive force can lead to failure. Follow installation instructions carefully.
- **Weight Limitations:** The ULTRALIGHT scope mount is lightweight (4.1 oz), but ensure that your firearm can accommodate the scope and mount without compromising balance or control.
- **Installation Torque:** Adhere to the recommended screw torque of 15 inlbs to prevent overtightening, which can damage the mount or firearm.
- **Compatibility:** Ensure that the mount is compatible with your AR type upper receiver and MilSpec 1913 Picatinny rail before installation.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including a torque wrench and appropriate screwdrivers.
- Ensure the firearm is unloaded and pointed in a safe direction during installation.

### 2. Installation:

- Position the scope mount on the Picatinny rail of your upper receiver.
- Align the crossslot keyway with the rail to ensure a secure fit.
- Use the screws provided to attach the mount, applying a torque of 15 inlbs. Do not exceed this torque to avoid damage.
- Doublecheck the alignment and tightness of the screws after installation.

### 3. Usage:

- Once installed, mount your scope securely on the rings of the scope mount.
- Adjust the scope as necessary for optimal eye relief and target acquisition.
- Regularly check the mount and scope for tightness and alignment before each shooting session.

## **Disposal Instructions**

- Dispose of the scope mount in accordance with local regulations regarding electronic waste and metal recycling.
- If the product is damaged or no longer usable, consider recycling components where possible.

## **Contact Information for Further Support**

For further support or inquiries regarding safety, installation, or product features, please refer to the manufacturer's contact details provided with your product packaging or visit the official AERO PRECISION website.

## **Conclusion**

By following these safety instructions, you can ensure a safe and enjoyable experience with your ULTRALIGHT 34MM SPR Scope Mount. Always prioritize safety and remain informed about best practices in firearm handling and maintenance. Thank you for choosing AERO PRECISION.
