

223 WSSM GOLD MEDAL MATCH BUSHING NECK DIE - RCBS 223 WSSM BUSHING NECK DIE

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The 223 WSSM Gold Medal Match Series comprises the finest reloading dies built by RCBS. The Neck Bushing Sizer Die resizes only the case neck, and its changeable diameter neck bushing design has been trusted by benchrest and long-range precision shooters for years. It lets reloaders precisely set the amount of tension on the bullet, reducing work-hardening of the case neck brass, prolonging case life and increasing accuracy. However, getting these benefits requires the use of high-end brass with consistent neck thicknesses. Neck bushings (sold separately) are available in .001-inch increments from .189-inch to .365-inch. Note: Neck Bushings are not included.

Safety Instruction Guide for 223 WSSM Gold Medal Match Bushing Neck Die

Introduction

Thank you for choosing the 223 WSSM Gold Medal Match Bushing Neck Die by RCBS. This product is designed for precision reloading, ensuring highquality ammunition for your shooting needs. To ensure safe and effective use of this product, please carefully read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the die in accordance with the manufacturer's instructions.
- Ensure that the workspace is clean and organized to prevent accidents.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Keep the die and reloading components out of reach of children and unauthorized users.
- Report any unsafe conditions or accidents to the relevant authorities.
- Regularly check for product recalls on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - Risk of injury from sharp edges of the die and components.
 - Risk of improper ammunition that could lead to firearm malfunction.
- **Avoiding Hazards:**
 - Always handle the die with care to prevent cuts or injuries.
 - Ensure that all components used with the die are compatible and in good condition.
 - Do not exceed the recommended load specifications for your ammunition.
- **AgeSpecific Warnings:**
 - This product is intended for adult use only. Keep out of reach of children.

Instructions for Installation and Usage

- **Installation:**
 1. Ensure that your reloading press is securely mounted.
 2. Remove any existing die from the press and clean the die holder.
 3. Insert the 223 WSSM Bushing Neck Die into the die holder and tighten securely.
 4. Adjust the die to the desired position for resizing the case neck.
- **Usage:**
 1. Prepare your brass cases by cleaning and inspecting them for defects.
 2. Select the appropriate neck bushing (sold separately) that matches your brass neck thickness.
 3. Insert the bushing into the die according to the manufacturer's instructions.
 4. Place the brass case into the shell holder and pull the handle of the press to resize the neck.
 5. After resizing, remove the case and inspect it for proper sizing.
- **PostUse Care:**
 - Clean the die after each use to prevent residue buildup.
 - Store the die in a dry and safe location, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any used or defective components in accordance with local regulations.
- Do not discard the die or any associated materials in regular household waste.
- Contact local recycling centers for information on proper disposal methods for metal and plastic components.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's website or contact their customer service directly. Ensure that you have your product details ready for a more efficient response.

By following these safety instructions, you can ensure a safe and effective reloading experience with the 223 WSSM Gold Medal Match Bushing Neck Die. Thank you for your attention to safety and for choosing RCBS products.
