

# 44-40 WINCHESTER 3-DIE SET - RCBS 44-40 WINCHESTER 3-DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The 44-40 Winchester 3-Die Roll Crimp Set is for loading straight-wall cartridges. Its steel Sizer Die sizes the case and de-primes. Note: Cases must be lubricated. The Expander Die expands the case to the proper diameter to accept the bullet, and it imparts case mouth flare/bell for bullet feeding. The Seater Die seats the bullet and roll crimps.

# Safety Instruction Guide for 4440 Winchester 3Die Set

## Introduction

Thank you for choosing the 4440 Winchester 3Die Set by RCBS. This guide provides important safety information and instructions for the safe use of this product. Please read this guide carefully before using the product to ensure safe and effective operation.

## General Safety Guidelines

- Ensure that you are familiar with the operation of reloading equipment and the specific requirements for loading ammunition.
- Always use protective eyewear when handling and operating reloading equipment.
- Keep the work area clean and organized to avoid accidents or mishaps.
- Store all reloading components, including powder and primers, in a safe and secure location, away from children and pets.
- Never exceed recommended load data provided by reputable sources.
- Be aware of the potential hazards associated with handling ammunition components, including lead exposure and the risk of fire.

## Specific Safety Precautions for Use

- *Lubrication:* Ensure that cases are properly lubricated before sizing to prevent stuck cases in the die.
- *Die Handling:* Handle the dies with care. Avoid dropping or mishandling them as this may cause damage or affect performance.
- *Bullet Seating:* When seating bullets, ensure that the bullet is properly aligned with the case to prevent jamming or misfires.
- *Crimping:* Ensure that the crimping process is done correctly to avoid excessive pressure during firing, which could lead to dangerous situations.
- *Ventilation:* Always work in a wellventilated area to minimize exposure to dust and fumes from reloading materials.

## Instructions for Installation and Usage

### 1. Installation of Dies:

- Remove the dies from the packaging and inspect them for any damage.
- Install the Sizer Die in the press and adjust it according to the manufacturer's instructions.
- Install the Expander Die and adjust it to achieve the desired case mouth flare.
- Finally, install the Seater Die and ensure it is set to the correct bullet seating depth.

### 2. Reloading Process:

- Start by lubricating the cases to prevent sticking.
- Size the cases using the Sizer Die, ensuring they are properly deprimed.
- Use the Expander Die to flare the case mouth for bullet insertion.
- Insert the bullet into the flared case mouth and use the Seater Die to seat the bullet to the proper depth.
- Roll crimp the case mouth to secure the bullet in place.

### 3. After Reloading:

- Inspect all completed cartridges for defects or irregularities.
- Store the loaded ammunition in a safe and secure location.

## **Disposal Instructions**

- Dispose of any unused or damaged components according to local regulations.
- Do not throw away hazardous materials in regular waste. Check local guidelines for proper disposal methods for reloading materials.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the 4440 Winchester 3Die Set, please contact the manufacturer or refer to the product packaging for further support options.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable reloading experience with the 4440 Winchester 3Die Set. Always prioritize safety and stay informed about best practices in ammunition reloading.
