

3-DIE ROLL CRIMP DIE SETS - RCBS 45-70 GOVERNMENT 3-DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The RCBS 3-Die Roll Crimp Set is for loading straight-wall cartridges. Its steel Sizer Die sizes the case and de-primers. Note: Cases must be lubricated. The Expander Die expands the case to the proper diameter to accept the bullet, and it imparts case mouth flare/bell for bullet feeding. The Seater Die seats the bullet and roll crimps. Includes: Full Length Sizer Die Expander Die Roll Crimp Seater Die

Attributes

Safety Instruction Guide for RCBS 3DIE ROLL CRIMP DIE SETS

Introduction

Thank you for choosing the RCBS 3DIE Roll Crimp Set for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that you are familiar with the reloading process and the specific requirements for loading straightwall cartridges.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment and materials.
- Store all components, including dies and ammunition, in a secure location away from children and unauthorized users.
- Regularly inspect your reloading equipment for wear and damage. Replace any damaged components immediately.
- Follow all local laws and regulations regarding ammunition reloading and storage.
- Be aware of the potential hazards associated with reloading, including the risk of accidental discharge and exposure to hazardous materials.

Specific Safety Precautions for Use

- **Lubrication Requirement:** Always lubricate cases before sizing to prevent stuck cases in the die.
- **Proper Handling:** Handle all components, especially the Sizer Die and Seater Die, with care to avoid injury.
- **Bullet Seating:** Ensure that the bullet is properly seated before attempting to roll crimp. Improper seating can lead to dangerous situations.
- **Avoid Overloading:** Do not exceed recommended powder charges or bullet weights specified in reputable reloading manuals.
- **Ventilation:** Use your reloading setup in a wellventilated area to avoid inhaling any dust or fumes from materials used in reloading.

Instructions for Installation and Usage

1. Setup:

- Securely mount the RCBS 3DIE Roll Crimp Set in a stable reloading press.
- Ensure all dies are properly aligned and tightened to prevent movement during operation.

2. Sizing and Depriming:

- Insert a lubricated case into the Sizer Die and operate the press to size and deprime the case.
- Check the case for proper sizing and ensure the primer has been removed.

3. Expanding:

- Use the Expander Die to expand the case mouth. Insert the case into the Expander Die and operate the press.
- Confirm that the case mouth is flared adequately for bullet insertion.

4. Seating and Crimping:

- Place a bullet into the flared case mouth and insert it into the Roll Crimp Seater Die.
- Operate the press to seat the bullet and roll crimp the case mouth securely.

5. Final Inspection:

- Inspect each loaded round for proper seating, crimping, and overall condition before storage or use.

Disposal Instructions

- Dispose of any unused components, including spent primers and excess powder, in accordance with local regulations.
- Do not throw away hazardous materials in regular trash. Contact local waste management services for safe disposal options.

Contact Information for Further Support

For any inquiries or further assistance regarding the RCBS 3DIE Roll Crimp Set, please refer to the manufacturer's website or your local dealer for support. Ensure you have your product details ready for efficient assistance.

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with your RCBS 3DIE Roll Crimp Set. Always prioritize safety and adhere to best practices while reloading.
