

STEEL NECK SIZING BUSHINGS - RCBS 0.195" STEEL NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS 0.195" STEEL NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060232
- Mfr. No.: 81510
- Diameter (Breech): -
- Diameter (in): .195
- Delivery weight: 0.454kg
- Shipping height: 25mm
- Shipping width: 76mm
- Shipping length: 127mm
- UPC: 076683815101

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. These bushings are designed to provide optimal neck tension for precision reloading. This safety instruction guide outlines essential safety guidelines, precautions for use, and proper installation and disposal methods to ensure a safe and effective experience.

General Safety Guidelines

- Ensure that you are familiar with the operation of your RCBS Gold Medal Match sizing dies before using the steel neck bushings.
- Always handle reloading components with care and follow all safety protocols.
- Keep the bushings and all reloading materials out of reach of children and unauthorized users.
- Inspect the bushings for any signs of damage or wear before each use. Do not use damaged bushings.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear safety glasses when reloading to protect your eyes from potential debris.
- Do not exceed the recommended specifications for neck tension; this can lead to unsafe ammunition.
- Use traditional case lubrication when using the bushings, as they come "inthewhite" (bare steel).
- Ensure that you are using highquality brass with consistent neck thicknesses for best results.
- Keep your workspace clean and organized to prevent accidents.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for the correct neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installing the Bushing:

- Ensure your RCBS Gold Medal Match sizing die is clean and free from any obstructions.
- Carefully insert the selected steel neck bushing into the sizing die.
- Secure the bushing in place according to the manufacturer's instructions.

3. Using the Bushing:

- Insert the case into the sizing die and apply consistent pressure to size the neck.
- Check the tension and fit of the bullet after sizing to ensure it meets your specifications.

4. PostUse Care:

- Clean the bushings after use to prevent corrosion and maintain performance.
- Store the bushings in a dry, cool place, away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw bushings in regular household waste. Instead, consider recycling options if available.
- Ensure that all reloading materials are disposed of safely and responsibly.

Contact Information for Further Support

For any questions or concerns regarding the RCBS Steel Neck Sizing Bushings, please refer to the manufacturer's guidelines or contact the appropriate support channels.

By following these safety instructions, you can ensure a safe and successful reloading experience with your RCBS Steel Neck Sizing Bushings. Thank you for prioritizing safety in your reloading practices.
