

STEEL NECK SIZING BUSHINGS - RCBS 0.203" STEEL NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS 0.203" STEEL NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060239
- Mfr. No.: 81518
- Diameter (in): .203
- Delivery weight: 0.454kg
- Shipping height: 25mm
- Shipping width: 76mm
- Shipping length: 127mm
- UPC: 076683815187

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. This product is designed to enhance your reloading experience, ensuring precision and accuracy in ammunition preparation. To ensure your safety and the optimal performance of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure safe handling of the Steel Neck Sizing Bushings to prevent injury.
- Use the product only with compatible RCBS Gold Medal Match sizing dies.
- Be aware of the potential hazards associated with improper use and handling of the bushings.
- Always keep the product out of reach of children and vulnerable individuals.
- Regularly check for updates on product safety and recalls via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Proper Use:**
 - Use the Steel Neck Sizing Bushings exclusively with RCBS Gold Medal sizing dies.
 - Ensure that the bushings are correctly fitted to avoid damaging the case neck or affecting accuracy.
- **Handling:**
 - Handle the bushings with care to avoid injury from sharp edges.
 - Wear safety glasses when operating reloading equipment to protect your eyes from debris.
- **Lubrication:**
 - Use traditional case lubrication as the bushings come "inthewhite" (bare steel).
 - Ensure that lubrication is applied evenly to prevent cases from sticking.
- **Measurement:**
 - Measure the outside neck diameter of your loaded cartridge accurately before selecting a bushing.
 - Follow the recommended measurement guidelines to achieve the correct neck tension.
- **Storage:**
 - Store the bushings in a dry and safe location to prevent rust and damage.
 - Keep the packaging and any safety information for future reference.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" for correct neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, then subtract .002" to .003".

2. Installation:

- Ensure that the sizing die is clean and free of debris.
- Insert the selected Steel Neck Sizing Bushing into the sizing die.
- Tighten the die securely to prevent movement during operation.

3. Using the Bushing:

- Place the case into the sizing die and apply force to size the neck.
- Ensure that the die is properly aligned with the case neck for accurate sizing.
- Inspect the case after sizing to ensure proper fit and tension.

4. PostUse Maintenance:

- Clean the bushings after each use to remove any residue or lubrication.
- Store the bushings in their designated storage case to avoid damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste if they are contaminated with hazardous materials.
- Consider recycling options for steel components where available.

Contact Information for Further Support

For inquiries regarding the safety and use of RCBS Steel Neck Sizing Bushings, please refer to the manufacturer's website or customer service resources. It is important to stay informed about product safety updates and recalls.

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your RCBS Steel Neck Sizing Bushings. Thank you for your attention to these important safety measures.
