

STEEL NECK SIZING BUSHINGS - RCBS 0.204" STEEL NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS 0.204" STEEL NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060240
- Mfr. No.: 81519
- Diameter (in): .204
- Delivery weight: 0.454kg
- Shipping height: 25mm
- Shipping width: 76mm
- Shipping length: 127mm
- UPC: 076683815194

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. These bushings are designed to enhance the precision and performance of your reloading process, specifically when used with RCBS Gold Medal Match sizing dies. This guide aims to provide you with essential safety instructions to ensure the safe and effective use of this product.

General Safety Guidelines

- Always read and understand all instructions before using the product.
- Ensure the workspace is clean and organized to prevent accidents.
- Keep out of reach of children and vulnerable individuals.
- Use protective eyewear and gloves when handling materials.
- Regularly check for wear and damage to ensure safe operation.
- Follow all local laws and regulations related to ammunition reloading.

Specific Safety Precautions for Use

- Only use RCBS Steel Neck Sizing Bushings with RCBS Gold Medal sizing dies.
- Ensure the bushing size is appropriate for your loaded cartridge. Refer to measurement guidelines for proper sizing.
- Avoid using excessive force when resizing cases to prevent injury or damage to the equipment.
- Use traditional case lubrication to prevent cases from sticking in the die.
- Be aware of the potential for brass shavings or debris during operation. Clean the workspace regularly to minimize risks.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from the measurement to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation:

- Ensure the reloading press is turned off and unplugged before installation.
- Remove any previous bushings from the sizing die.
- Insert the selected RCBS Steel Neck Bushing into the sizing die, ensuring it is properly seated.
- Tighten the die according to the manufacturer's specifications.

3. Usage:

- Insert the case into the sizing die and apply steady pressure to resize the neck.
- Monitor the tension on the bullet to ensure proper fit and function.
- After use, remove the bushing and clean it if necessary.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Recycle materials where possible to minimize environmental impact.
- Do not dispose of bushings in regular household waste if they contain any hazardous materials.

Contact Information for Further Support

- For any questions or concerns regarding safety or usage, please refer to the RCBS website or contact their customer service for assistance.

This guide serves as an essential resource for the safe and effective use of RCBS Steel Neck Sizing Bushings. By following these instructions and guidelines, you will ensure a more productive and safer reloading experience. Always prioritize safety and compliance with applicable regulations.
