

STEEL NECK SIZING BUSHINGS - RCBS 0.205" STEEL NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS 0.205" STEEL NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060241
- Mfr. No.: 81520
- Diameter (in): .205
- Delivery weight: 0.454kg
- Shipping height: 25mm
- Shipping width: 76mm
- Shipping length: 127mm
- UPC: 076683815200

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. These bushings are designed to enhance your reloading experience by providing precise neck tension for improved accuracy. To ensure safe and effective use, please read this guide thoroughly.

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Be aware of potential hazards associated with improper use.
- Always use the product as intended and in accordance with the manufacturer's recommendations.
- Regularly check for product updates and recalls on the EU Safety Gate platform.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when reloading ammunition.
- Keep your workspace clean and organized to prevent accidents.
- Handle all components, including neck bushings, with care to avoid injury.
- Ensure that your equipment is in good working condition before use.
- Avoid contact with sharp edges of the steel bushings to prevent cuts or injuries.
- Keep neck bushings out of reach of children and vulnerable individuals.

Instructions for Installation and Usage

1. Selecting the Correct Bushing:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to select the appropriate bushing.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation:

- Ensure that your RCBS Gold Medal Match sizing die is clean and free from debris.
- Insert the selected steel neck bushing into the sizing die according to the manufacturer's instructions.
- Ensure the bushing is seated properly and securely.

3. Usage:

- Follow the standard operating procedures for your reloading equipment.
- Use highquality brass with consistent neck thickness for best results.
- Lubricate cases as necessary since the bushings come "inthewhite" (bare steel).
- Perform regular checks to ensure proper alignment and function during reloading.

4. PostUse Care:

- After use, clean the bushings to prevent corrosion and maintain their longevity.
- Store the bushings in a dry, cool place away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any damaged or unusable neck bushings in accordance with local regulations.
- Do not throw bushings into regular waste; check for recycling options for metal components.
- Ensure that any hazardous materials are disposed of safely and responsibly.

Contact Information for Further Support

For additional support or inquiries regarding the RCBS Steel Neck Sizing Bushings, please refer to the manufacturer's contact details provided with your product packaging.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Happy reloading!
