

# STEEL NECK SIZING BUSHINGS - RCBS 0.211" STEEL NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

## Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [RCBS 0.211" STEEL NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060244
- Mfr. No.: 81526
- Diameter (Breech): -
- Diameter (in): .211
- Delivery weight: 0.454kg
- Shipping height: 25mm
- Shipping width: 76mm
- Shipping length: 127mm
- UPC: 076683815262

# STEEL NECK SIZING BUSHINGS RCBS 0.211" STEEL NECK SIZING BUSHING Safety Instruction Guide

## Introduction

Thank you for purchasing the RCBS Steel Neck Sizing Bushings. This guide provides important safety information and instructions for the proper use and disposal of the product. Please read this guide carefully to ensure safe and effective use.

## General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Be aware of potential hazards associated with the use of steel neck sizing bushings, including:
  - Injury from sharp edges or metal fragments.
  - Improper neck tension leading to ammunition malfunction.
- Use the product only as intended, specifically with RCBS Gold Medal sizing dies.
- Keep the product out of reach of children and vulnerable individuals.

## Specific Safety Precautions for Use

- Always wear safety glasses to protect your eyes from metal shavings or debris.
- Handle the bushings with care to avoid cuts or injuries.
- Ensure that your working area is clean and free of distractions.
- Use proper case lubrication when using the bushings to prevent damage to the brass.
- Regularly inspect the bushings for wear or damage. Do not use if you notice any defects.
- Follow the recommended measurements for selecting the appropriate bushing size to ensure correct neck tension.

## Instructions for Installation and Usage

### 1. Selecting the Right Bushing Size:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for the correct neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and then subtract .002" to .003".

### 2. Installation:

- Ensure that the RCBS Gold Medal sizing die is properly set up according to the manufacturer's instructions.
- Insert the selected steel neck bushing into the sizing die, ensuring it is seated correctly.

### 3. Usage:

- Lubricate the cases with traditional case lubrication before resizing.
- Insert the brass case into the sizing die and operate the press according to the manufacturer's guidelines.
- After resizing, inspect the case neck for proper tension and fit.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local waste management regulations.
- Do not dispose of the product in household waste. Check for recycling options for metal components.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the RCBS Steel Neck Sizing Bushings, please refer to the appropriate EU contact point or customer service resources.

## Conclusion

By following this safety instruction guide, you can ensure the safe and effective use of the RCBS Steel Neck Sizing Bushings. Always prioritize safety and adhere to the guidelines provided to enhance your reloading experience. Thank you for choosing RCBS products.
