

# STEEL NECK SIZING BUSHINGS - RCBS 0.215" STEEL NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

## Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

## Attributes

- Name: [RCBS 0.215" STEEL NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060247
- Mfr. No.: 81530
- Diameter (Breech): -
- Diameter (in): .215
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 51mm
- Shipping length: 152mm
- UPC: 076683815309

# Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

## Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. These bushings are designed to provide precise neck tension for your ammunition, enhancing accuracy and prolonging case life. This guide provides important safety information and instructions for the proper use of this product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure safe use of the RCBS Steel Neck Sizing Bushings by following all instructions carefully.
- Always check the product for signs of damage before use. Do not use if damaged.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use the bushings only with RCBS Gold Medal Match sizing dies as intended.
- Report any unsafe conditions or incidents related to this product to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as safety glasses, when using reloading equipment.
- Handle all components, including the bushings, with care to avoid injury.
- Ensure that the reloading area is wellventilated and free from distractions.
- Do not exceed recommended specifications for neck sizing; using a bushing that is too small can lead to excessive pressure and potential firearm damage.
- Follow the manufacturer's recommendations for bushing sizes to ensure proper fit and function.

## Instructions for Installation and Usage

### 1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003".
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

### 2. Installation:

- Ensure that your RCBS Gold Medal Match sizing die is clean and free of debris.
- Insert the selected steel neck bushing into the die, ensuring it is properly seated.
- Tighten the die securely to prevent movement during operation.

### 3. Using the Bushing:

- Insert the case into the sizing die and apply consistent pressure on the press handle.
- Monitor the process to ensure that the case is being sized uniformly.
- After sizing, check the neck tension and adjust the bushing size if necessary.

## Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check for recycling options or hazardous waste disposal facilities in your area.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact details provided with your product packaging or visit the official website.

By following these guidelines, you can ensure a safe and effective reloading experience with your RCBS Steel Neck Sizing Bushings. Thank you for your attention to safety and proper usage.
