

STEEL NECK SIZING BUSHINGS - RCBS 0.234" STEEL NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS 0.234" STEEL NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060262
- Mfr. No.: 81549
- Diameter (Breech): -
- Diameter (in): .234
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 51mm
- Shipping length: 152mm
- UPC: 076683815491

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. These bushings are designed to enhance the precision of your reloading process when used with RCBS Gold Medal Match sizing dies. This guide provides important safety information to ensure the safe and effective use of this product.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is used in accordance with the manufacturer's guidelines.
- Keep the bushings out of reach of children and vulnerable individuals.
- Inspect the bushings for any signs of damage before use. Do not use damaged bushings.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the bushings only with RCBS Gold Medal sizing dies.
- Ensure that the bushing size is appropriate for your specific cartridge. Follow the measurement guidelines provided.
- Use highquality brass with consistent neck thickness for optimal results.
- Traditional case lubrication is required, as the bushings come "inthewhite" (bare steel).
- Avoid excessive force during the reloading process to prevent injury or damage to equipment.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for proper neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the bullet diameter, and subtract .002" to .003".

2. Installing the Bushing:

- Ensure your RCBS Gold Medal sizing die is clean and free of debris.
- Insert the selected steel neck bushing into the die according to the manufacturer's instructions.

3. Reloading Process:

- Lubricate the case necks as recommended.
- Insert the case into the sizing die and apply smooth, even pressure to resize the neck.
- Check the tension of the bullet seated in the case to ensure it meets your specifications.

4. PostUsage Care:

- Clean the bushings after each use to prevent corrosion.
- Store the bushings in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Recycle materials where possible, ensuring that they do not pose a safety risk to others.

Contact Information for Further Support

For any inquiries regarding the safety and use of RCBS Steel Neck Sizing Bushings, please consult the manufacturer's website or customer support resources.

Thank you for prioritizing safety while using the RCBS Steel Neck Sizing Bushings. Your careful attention to these guidelines will help ensure a safe and successful reloading experience.
