

STEEL NECK SIZING BUSHINGS - RCBS 0.280" STEEL NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Can't Load With RCBS GMM Dies Without One

RCBS Steel Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match sizing dies. Using a precisely fitted Steel Neck Bushing reduces work hardening of the case neck brass, prolonging case life and helping to improve accuracy. Self-centering for proper alignment with case neck For best results, the use of high-end brass with consistent neck thicknesses is recommended Bushings come "in-the-white" - bare steel - so traditional case lubrication is required For use ONLY with RCBS Gold Medal sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Steel Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS 0.280" STEEL NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060295
- Mfr. No.: 81595
- Diameter (in): .280
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 51mm
- Shipping length: 152mm
- UPC: 076683815958

Safety Instruction Guide for RCBS Steel Neck Sizing Bushings

Introduction

Thank you for choosing the RCBS Steel Neck Sizing Bushings. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before use to understand the potential hazards and safety precautions.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified.
- Keep out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage.
- If you notice any unusual behavior or performance, discontinue use immediately.
- Always follow the manufacturer's recommendations for use and maintenance.

Specific Safety Precautions for Use

- Use only with RCBS Gold Medal Match sizing dies to avoid compatibility issues.
- Ensure that the bushing is properly aligned with the case neck before use.
- Avoid excessive force when inserting or removing the bushing from the die.
- Wear appropriate eye protection when working with reloading equipment.
- Handle all components, including brass cases and bullets, with care to prevent injury.

Instructions for Installation and Usage

1. Selecting the Right Bushing

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" to determine the correct bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installing the Bushing

- Ensure the sizing die is clean and free from debris.
- Insert the selected steel neck sizing bushing into the die until it is fully seated.
- Tighten the die securely to ensure proper alignment.

3. Using the Bushing

- Insert the brass case into the sizing die and gently press down on the handle to size the neck.
- Avoid applying too much pressure, as this may damage the case neck or bushing.
- After sizing, carefully remove the case from the die.

4. Cleaning and Maintenance

- Clean the bushing regularly to remove any brass shavings or lubricants.
- Store the bushings in a dry place to prevent rust and corrosion.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Ensure that all components are disposed of in a manner that does not pose a risk to the environment.

Contact Information for Further Support

For any inquiries regarding the safety and use of the RCBS Steel Neck Sizing Bushings, please refer to the manufacturer's customer service resources.
