

# TUNGSTEN COATED NECK SIZING BUSHING - RCBS 0.199"

## TUNGSTEN NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

### No-Lube-Required Bushings for Use With GMM Sizing Dies

RCBS Coated Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match neck sizing dies. These bushings have a Tungsten Disulfide (WS2) anti-friction coating, so they do not require use of traditional case lube. Self-centering for proper alignment with case neck. For best results, use of high-end brass with consistent neck thicknesses. For use ONLY with RCBS Gold Medal neck sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Coated Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

### Attributes

- Name: [RCBS 0.199" TUNGSTEN NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060360
- Mfr. No.: 81714
- Diameter (in): .199
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 51mm
- Shipping length: 152mm
- UPC: 076683817143

# Safety Instruction Guide for TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.199"

## Introduction

Thank you for choosing the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.199". This product is designed for reloaders seeking precision and consistency in their ammunition. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that you are using this product only with compatible RCBS Gold Medal Match neck sizing dies.
- Keep the bushing and all related components out of reach of children and vulnerable individuals.
- Regularly inspect the bushing for any signs of wear or damage before use.
- Always wear appropriate safety gear, including safety glasses, when handling ammunition components.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Avoid using the bushing with cases that have inconsistent neck thicknesses, as this may lead to improper neck tension.
- Do not attempt to modify or alter the bushing in any way, as this may compromise its integrity and safety.
- Use only highend brass to ensure optimal performance and safety.
- When measuring for the correct neck bushing size, follow the recommended measurement methods to avoid incorrect tension.
- Do not exceed the recommended tension specifications to prevent damage to the bullet or case.

## Instructions for Installation and Usage

### 1. Selecting the Right Bushing Size:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to determine the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

### 2. Installation:

- Ensure that your RCBS Gold Medal Match neck sizing die is clean and free of debris.
- Insert the selected tungsten coated neck sizing bushing into the die.
- Secure the bushing according to the manufacturer's instructions.

### 3. Usage:

- Place the case into the die, ensuring proper alignment with the selfcentering feature of the bushing.
- Apply the necessary force to resize the neck, ensuring not to exceed the recommended tension.
- Remove the resized case and inspect it for proper neck tension.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw the product into regular waste. Instead, follow recycling guidelines for metal components when applicable.

## **Contact Information for Further Support**

For any questions or concerns regarding the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.199", please refer to the manufacturer's contact information provided with your product packaging.

By following these guidelines, you will ensure safe and effective use of your TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.199". Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
