

TUNGSTEN COATED NECK SIZING BUSHING - RCBS 0.202"

TUNGSTEN NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

No-Lube-Required Bushings for Use With GMM Sizing Dies

RCBS Coated Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match neck sizing dies. These bushings have a Tungsten Disulfide (WS2) anti-friction coating, so they do not require use of traditional case lube. Self-centering for proper alignment with case neck. For best results, use of high-end brass with consistent neck thicknesses. For use ONLY with RCBS Gold Medal neck sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Coated Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS 0.202" TUNGSTEN NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)

Safety Instruction Guide for TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.202"

Introduction

Thank you for choosing the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.202". This product is designed to provide precise neck tension for your ammunition, enhancing your reloading experience. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Inspect the bushing for any damage before use. Do not use if damaged.
- Keep the bushing out of reach of children and pets.
- Ensure that your workspace is clean and free from distractions while using this product.
- Report any accidents or unsafe conditions to the appropriate authorities.

Specific Safety Precautions for Use

- Use only with RCBS Gold Medal Match neck sizing dies.
- Ensure that the bushing is properly aligned with the case neck during use to avoid misfires or damage.
- Use highquality brass with consistent neck thicknesses for optimal results.
- Avoid using excessive force when resizing cases; this can lead to equipment failure or personal injury.
- Do not attempt to modify or alter the bushing in any way.

Instructions for Installation and Usage

1. Selecting the Right Bushing:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to select the appropriate bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the bullet diameter, and subtract .002" to .003".

2. Installation:

- Ensure your reloading press is clean and free from obstructions.
- Insert the bushing into the sizing die according to the manufacturer's instructions.
- Securely tighten the die in your reloading press.

3. Usage:

- Place a case in the reloading press.
- Operate the press to resize the case, ensuring the bushing is properly aligned with the case neck.
- Inspect the resized case for proper neck tension before use.

4. PostUse Care:

- Clean the bushing after each use to remove any residue.
- Store the bushing in a safe and dry location, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of the bushing in regular household waste. Check for recycling options available in your area.

Contact Information for Further Support

For any safety inquiries or additional support, please contact your local retailer or the manufacturer directly. Ensure that all communications include the product name and model number for efficient assistance.

By following these guidelines, you can ensure a safe and effective reloading experience with your TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.202". Thank you for prioritizing safety in your reloading practices.
