### **No-Lube-Required Bushings for Use With GMM Sizing Dies**

RCBS Coated Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match neck sizing dies. These bushings have a Tungsten Disulfide (WS2) anti-friction coating, so they do not require use of traditional case lube. Self-centering for proper alignment with case neck. For best results, use of high-end brass with consistent neck thicknesses. For use ONLY with RCBS Gold Medal neck sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Coated Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

### **Attributes**

- Name: [RCBS 0.206" TUNGSTEN NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060367
- Mfr. No.: 81721
- Diameter (in): .206
- Delivery weight: 0.007kg
- Shipping height: 25mm
- Shipping width: 25mm
- Shipping length: 25mm
- UPC: 076683817211

# Safety Instruction Guide for TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.206"

## Introduction

Thank you for choosing the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.206". This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this manual thoroughly before use.

## General Safety Guidelines

- Ensure safe use of the neck sizing bushing by following all instructions provided.
- Be aware of potential hazards associated with the product, including improper use and handling.
- Regularly check for updates on safety recalls or alerts through the EU Safety Gate platform.
- If you notice any damage or irregularities in the product, discontinue use immediately and report the issue.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the neck sizing bushing.
- Keep the bushing out of reach of children and vulnerable individuals to prevent accidental injury.
- Ensure proper alignment of the bushing with the case neck to avoid misalignment or damage during use.
- Do not exceed the recommended operational limits, including neck tension specifications.
- Avoid using the bushing with cases that have significant wear or damage.

## Instructions for Installation and Usage

### 1. Selecting the Right Bushing Size:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" for correct neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the bullet diameter, and subtract .002" to .003".

### 2. Installation:

- Ensure that the RCBS Gold Medal Match neck sizing die is clean and free of any debris.
- Insert the tungsten coated neck sizing bushing into the die according to manufacturer instructions.
- Secure the bushing in place, ensuring it is properly aligned.

### 3. Usage:

- Insert the case into the die with the bushing properly aligned with the neck.
- Apply steady and even pressure to size the neck.
- Remove the case and inspect for proper neck tension.

### 4. PostUse Care:

- Clean the bushing after each use to maintain its performance and longevity.
- Store the bushing in a dry, cool place away from direct sunlight and moisture.

## Disposal Instructions

- Dispose of the product in accordance with local regulations for metal and plastic waste.
- Do not dispose of the product in general household waste.
- If unsure about disposal methods, consult local waste management authorities for guidance.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.206", please consult the manufacturer's customer service or the relevant local authorities for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your neck sizing bushing. Your safety is our priority. Thank you for your attention to these guidelines.
