### **No-Lube-Required Bushings for Use With GMM Sizing Dies**

RCBS Coated Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match neck sizing dies. These bushings have a Tungsten Disulfide (WS2) anti-friction coating, so they do not require use of traditional case lube. Self-centering for proper alignment with case neck. For best results, use of high-end brass with consistent neck thicknesses. For use ONLY with RCBS Gold Medal neck sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Coated Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

### **Attributes**

- Name: [RCBS 0.210" TUNGSTEN NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060370
- Mfr. No.: 81725
- Diameter (in): .210
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 51mm
- Shipping length: 152mm
- UPC: 076683817259

# Safety Instruction Guide for TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.210"

## Introduction

Thank you for choosing the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.210". This guide provides important safety instructions and usage information to ensure your safety while using this product. Please read this document carefully before use to understand the associated risks and how to mitigate them.

## General Safety Guidelines

- Always use the neck sizing bushing in accordance with the manufacturer's instructions.
- Ensure that the bushing is compatible with RCBS Gold Medal Match neck sizing dies.
- Keep the bushing out of reach of children and vulnerable individuals.
- Inspect the bushing for any signs of damage before each use. Do not use if damaged.
- Follow all local regulations and guidelines regarding the use and disposal of reloading components.

## Specific Safety Precautions for Use

- Use highquality brass with consistent neck thicknesses for optimal results.
- When selecting a bushing, measure the outside neck diameter of your loaded cartridge and subtract .002" to .003" to ensure proper neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the bullet diameter, and subtract .002" to .003".
- Always wear appropriate safety gear, such as eye protection, when reloading ammunition.
- Avoid using excessive force when installing or removing the bushing to prevent injury or damage.

## Instructions for Installation and Usage

1. **Preparation:** Gather all necessary materials, including the RCBS Gold Medal Match neck sizing dies and your chosen neck sizing bushing.
2. **Installation:**
  - Ensure your reloading press is turned off and unplugged.
  - Insert the neck sizing bushing into the die according to the manufacturer's instructions.
  - Confirm that the bushing is seated properly and securely.
3. **Usage:**
  - Load your brass into the press and align it with the neck sizing bushing.
  - Operate the press slowly and steadily to achieve the desired neck tension.
  - After sizing, inspect your brass to ensure it meets safety and quality standards.
4. **PostUsage:**
  - Clean the bushing after use to maintain its performance and longevity.
  - Store the bushing in a safe, dry place away from direct sunlight and moisture.

## Disposal Instructions

- Dispose of any used or damaged neck sizing bushings in accordance with local waste disposal regulations.
- Do not dispose of in regular household waste if the product is considered hazardous.
- Contact your local waste management facility for guidance on proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.210", please refer to the manufacturer's customer support resources. Always ensure you have the most up-to-date information regarding safety guidelines and product usage.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective reloading experience with your TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.210". Always prioritize safety and adhere to the guidelines to enjoy your reloading activities responsibly. Thank you for your attention to these important safety measures.
