### **No-Lube-Required Bushings for Use With GMM Sizing Dies**

RCBS Coated Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match neck sizing dies. These bushings have a Tungsten Disulfide (WS2) anti-friction coating, so they do not require use of traditional case lube. Self-centering for proper alignment with case neck. For best results, use of high-end brass with consistent neck thicknesses. For use ONLY with RCBS Gold Medal neck sizing dies, RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Coated Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

### **Attributes**

- Name: [RCBS 0.215" TUNGSTEN NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060374
- Mfr. No.: 81730
- Diameter (in): .215
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 102mm
- Shipping length: 152mm
- UPC: 076683817303

## 0.215" Safety Instruction Guide

### Introduction

Thank you for choosing the RCBS Tungsten Coated Neck Sizing Bushing. This product is designed to enhance your reloading experience by providing precise neck tension for your ammunition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

### General Safety Guidelines

- Ensure safe handling and use of the bushing in accordance with the following guidelines:
  - Always inspect the bushing for any signs of damage before use.
  - Store the bushing in a safe, dry place away from children and pets.
  - Follow all manufacturer instructions when using the bushing with RCBS Gold Medal Match neck sizing dies.
  - Use the product only for its intended purpose.

### Specific Safety Precautions for Use

- To avoid potential hazards, please observe the following precautions:
  - Do not exceed the recommended sizing diameter to prevent damage to the case or bushing.
  - Ensure that the bushing is securely attached to the sizing die before use.
  - Avoid using excessive force while resizing to prevent injury or damage.
  - Keep your workspace clean and organized to minimize the risk of accidents.
  - Wear appropriate eye protection when using reloading equipment.

### Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the Tungsten Coated Neck Sizing Bushing:
  1. **Select the Correct Bushing:**
    - Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003".
    - Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".
  2. **Install the Bushing:**
    - Ensure that the sizing die is clean and free from debris.
    - Insert the Tungsten Coated Neck Sizing Bushing into the sizing die.
    - Secure the bushing according to the manufacturer's instructions.
  3. **Resize the Cases:**
    - Insert the case into the sizing die with the installed bushing.
    - Apply steady pressure to resize the case, ensuring proper alignment.
    - Inspect the resized case for proper neck tension and dimensions.
  4. **Clean the Bushing:**
    - After use, clean the bushing with a soft cloth to remove any brass residue.
    - Store the bushing in a designated container to prevent damage.

### Disposal Instructions

- Dispose of the Tungsten Coated Neck Sizing Bushing responsibly:
  - Follow local regulations for the disposal of metal products.
  - Do not dispose of the bushing in regular household waste. Instead, seek out recycling facilities that accept metal items.

## Contact Information for Further Support

- For any inquiries regarding the safety and usage of the Tungsten Coated Neck Sizing Bushing, please contact the manufacturer directly. Ensure to have your product details and any relevant information ready for assistance.

## Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective reloading experience with your RCBS Tungsten Coated Neck Sizing Bushing. Always prioritize safety and proper handling to enjoy the full benefits of your product. Thank you for your attention and safe reloading!
