### **No-Lube-Required Bushings for Use With GMM Sizing Dies**

RCBS Coated Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match neck sizing dies. These bushings have a Tungsten Disulfide (WS2) anti-friction coating, so they do not require use of traditional case lube. Self-centering for proper alignment with case neck. For best results, use of high-end brass with consistent neck thicknesses. For use ONLY with RCBS Gold Medal neck sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Coated Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

### **Attributes**

- Name: [RCBS 0.218" TUNGSTEN NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060377
- Mfr. No.: 81733
- Diameter (in): .218
- Delivery weight: 0.045kg
- Shipping height: 25mm
- Shipping width: 102mm
- Shipping length: 152mm
- UPC: 076683817334

# Safety Instruction Guide for TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.218"

## Introduction

Thank you for choosing the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.218". This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the following information carefully to understand the necessary precautions and procedures.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified by the manufacturer.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before each use.
- Store the product in a dry and safe place to prevent damage and ensure longevity.
- If you encounter any issues or have concerns regarding the product, seek assistance from a qualified professional.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the neck sizing bushing.
- Avoid using excessive force when installing or using the bushing to prevent damage to the equipment or injury.
- Ensure that the bushing is properly aligned with the case neck before use to avoid accidents.
- Do not exceed the recommended specifications for neck sizing to maintain safety and effectiveness.
- Be aware of the potential for sharp edges on the bushing; handle with care to prevent cuts or injuries.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather the necessary tools and materials for neck sizing.
- Ensure that you have the appropriate RCBS Gold Medal Match neck sizing dies.

### 2. Installation:

- Remove any previous bushings from the die.
- Select the appropriate neck sizing bushing based on your measurements.
- Insert the selected tungstencoated neck sizing bushing into the die and secure it according to the manufacturer's instructions.

### 3. Usage:

- Measure the outside neck diameter of your loaded cartridge. Subtract .002" to .003" to determine the correct bushing size.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".
- Use the neck sizing die with the installed bushing to size your cases, ensuring proper alignment and tension.

### 4. PostUse Care:

- Clean the bushing after use to remove any debris or residue.
- Inspect the bushing for any signs of wear or damage before storing.

## **Disposal Instructions**

- Dispose of any damaged or wornout bushings in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste if it contains hazardous materials; consult local authorities for proper disposal methods.

## **Contact Information for Further Support**

For safety inquiries or additional support regarding the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.218", please refer to the manufacturer's contact information provided with the product packaging or on their official website.

By following the guidelines and instructions outlined in this document, you can ensure the safe and effective use of the TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.218". Thank you for prioritizing safety during your reloading activities.
