

TUNGSTEN COATED NECK SIZING BUSHING - 0.220" TUNGSTEN NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

No-Lube-Required Bushings for Use With GMM Sizing Dies

RCBS Coated Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match neck sizing dies. These bushings have a Tungsten Disulfide (WS2) anti-friction coating, so they do not require use of traditional case lube. Self-centering for proper alignment with case neck. For best results, use of high-end brass with consistent neck thicknesses. For use ONLY with RCBS Gold Medal neck sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Coated Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [0.220" TUNGSTEN NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060379

Safety Instruction Guide for TUNGSTEN COATED NECK SIZING BUSHING 0.220"

Introduction

Thank you for choosing the TUNGSTEN COATED NECK SIZING BUSHING 0.220" by RCBS. This product is designed to provide precise neck sizing for ammunition reloading, ensuring consistent performance. To ensure safe and effective use of this product, please read and follow the safety guidelines outlined in this document.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate safety gear, including safety glasses, when handling and using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the bushing only with RCBS Gold Medal neck sizing dies.
- Do not exceed the recommended sizing limits to avoid damaging your equipment.
- Handle the bushings with care to prevent injury from sharp edges.
- Ensure proper alignment of the bushing with the case neck to avoid misalignment during sizing.
- Avoid using excessive force when resizing cases to prevent equipment damage or personal injury.
- Always follow the manufacturer's recommendations for the appropriate size bushing based on your specific needs.

Instructions for Installation and Usage

1. Selecting the Correct Bushing:

- Measure the outside neck diameter of your loaded cartridge.
- Subtract .002" to .003" from this measurement to ensure proper neck tension.
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation:

- Ensure that your RCBS Gold Medal neck sizing die is clean and free from debris.
- Insert the tungsten-coated neck sizing bushing into the die according to the manufacturer's instructions.
- Ensure the bushing is properly seated and secured within the die.

3. Usage:

- Place the case into the die and ensure it is correctly aligned with the bushing.
- Apply consistent pressure to resize the neck of the case without excessive force.
- Check the resized case for proper fit and neck tension before proceeding with loading.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal and plastic waste.
- Do not dispose of the product in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For safety inquiries or further assistance, please refer to the manufacturer's guidelines or consult with a qualified professional.

By following these safety instructions, you can ensure a safe and effective experience with the TUNGSTEN COATED NECK SIZING BUSHING 0.220". Thank you for your attention to safety and proper use.
