

TUNGSTEN COATED NECK SIZING BUSHING - RCBS 0.225"

TUNGSTEN NECK SIZING BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

No-Lube-Required Bushings for Use With GMM Sizing Dies

RCBS Coated Neck Bushings are interchangeable to let the reloader select a bushing that gives precisely the right amount of tension on the bullet when using RCBS Gold Medal Match neck sizing dies. These bushings have a Tungsten Disulfide (WS2) anti-friction coating, so they do not require use of traditional case lube. Self-centering for proper alignment with case neck. For best results, use of high-end brass with consistent neck thicknesses. For use ONLY with RCBS Gold Medal neck sizing dies RCBS recommends having neck bushings one to two sizes above and below your target diameter (see note below). RCBS Coated Neck Bushings are a small but critical component in loading extremely consistent-shooting ammo with your Gold Medal Match sizing dies. Brownells Gun Tech™ Tip: There are two ways to select the steel neck bushings you need: (1) Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003". This allows approximately .001" of brass to spring back for correct neck tension. (2) You can also measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet and subtract .002" to .003".

Attributes

- Name: [RCBS 0.225" TUNGSTEN NECK SIZING BUSHING](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060383
- Mfr. No.: 81740

Safety Instruction Guide for TUNGSTEN COATED NECK SIZING BUSHING RCBS 0.225"

Introduction

Thank you for choosing the RCBS TUNGSTEN COATED NECK SIZING BUSHING 0.225". This product is designed to provide precision and reliability for reloaders. It is important to use this product safely and effectively. This guide outlines essential safety instructions and proper usage to ensure your safety and the safety of others.

General Safety Guidelines

- Always read and understand the product instructions before use.
- Ensure that the product is used only for its intended purpose.
- Store the product in a safe place, out of reach of children and vulnerable individuals.
- Regularly inspect the product for signs of wear or damage.
- Report any unsafe products or incidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the neck sizing bushing only with RCBS Gold Medal neck sizing dies.
- Ensure proper alignment of the bushing with the case neck to avoid misfires or damage.
- Do not exceed the recommended neck diameter specifications.
- Avoid using excessive force when resizing cases to prevent injury or damage to the product.
- Always wear appropriate safety gear, such as eye protection, when using reloading equipment.
- Be aware of the potential for lead exposure when handling ammunition components.

Instructions for Installation and Usage

1. Selecting the Correct Bushing Size:

- Measure the outside neck diameter of your loaded cartridge and subtract .002" to .003".
- Alternatively, measure the neck wall thickness of your case, multiply by two, add the diameter of your bullet, and subtract .002" to .003".

2. Installation:

- Ensure that your RCBS Gold Medal neck sizing die is clean and free of debris.
- Insert the tungsten-coated neck sizing bushing into the die according to the manufacturer's instructions.
- Secure the bushing in place as per the die specifications.

3. Usage:

- Place the brass case into the die with the neck aligned with the bushing.
- Operate the press smoothly to resize the neck without applying excessive force.
- Check the neck tension after resizing to ensure it meets your specifications.

4. PostUsage Care:

- Clean the bushing after use to maintain its antifriction coating.
- Store the bushing in a protective case to prevent damage.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local authorities for proper disposal methods for metal components.

Contact Information for Further Support

For any inquiries regarding the safe use of this product or for additional support, please refer to the manufacturer's official website or customer service resources.

By following these safety instructions, you can ensure a safe and effective reloading experience with the RCBS TUNGSTEN COATED NECK SIZING BUSHING 0.225". Thank you for your attention to safety.
