

45-70 GOVERNMENT COWBOY DIE SET - RCBS 45-70 GOVERNMENT 3-DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

RCBS' 45-70 Government 3-Die Cowboy Dies are built to slightly different dimensions than their regular dies to allow optimum sizing, expanding and crimping needed to load great lead bullet ammo. The 3-Die Carbide Roll Crimp Set is intended for loading straight-wall cartridges for period firearms used in Cowboy Action Shooting. The design allows optimum sizing, expanding, seating and crimping for lead bullet ammunition.

Safety Instruction Guide for RCBS 4570 Government 3Die Cowboy Die Set

Introduction

Thank you for choosing the RCBS 4570 Government 3Die Cowboy Die Set. This product is designed for loading lead bullet ammunition for Cowboy Action Shooting. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always handle dies and reloading equipment with care.
- Ensure you are familiar with the reloading process before using this product.
- Store dies and reloading components in a secure location, away from children and unauthorized users.
- Regularly inspect your dies for any signs of wear or damage before use.
- Understand the specific requirements for the 4570 Government cartridge to avoid accidents.

Specific Safety Precautions for Use

- Use only the appropriate components specified for the 4570 Government cartridge.
- Wear safety glasses to protect your eyes from potential debris or accidents during the reloading process.
- Do not exceed recommended powder loads as specified by reputable reloading manuals.
- Keep your work area clean and organized to prevent accidents.
- Never leave reloading equipment unattended while in use.
- Ensure proper ventilation when using any chemicals associated with reloading.

Instructions for Installation and Usage

1. Setting Up the Die Set

- Ensure your reloading press is securely mounted.
- Install the sizing die first, following the manufacturer's instructions for your specific press.
- Adjust the die according to the specifications for the 4570 Government cartridge.
- Install the expanding die next, ensuring it is properly adjusted for lead bullets.
- Finally, install the seating die, making sure it is set to the correct overall cartridge length.

2. Reloading Process

- Start by preparing your brass cases by cleaning and inspecting them.
- Resize the cases using the sizing die to ensure they fit the chamber of your firearm.
- Expand the case mouth using the expanding die to accommodate lead bullets.
- Insert the lead bullet into the case and use the seating die to press it to the correct depth.
- Crimp the bullet using the crimping feature of the seating die to secure it in place.

3. Final Checks

- Inspect each loaded cartridge for proper seating and crimping.
- Store completed cartridges in a safe and secure manner.

Disposal Instructions

- Dispose of any damaged or unusable dies and reloading components in accordance with local regulations.

- Do not throw away reloading materials in regular trash. Contact local waste management for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the RCBS 4570 Government 3Die Cowboy Die Set, please refer to the manufacturer's website or customer service.

Conclusion

By following these safety instructions, you can ensure a safe and enjoyable reloading experience with the RCBS 4570 Government 3Die Cowboy Die Set. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important guidelines.
