

# 7MM-08 REMINGTON NECK DIE SET - RCBS 7MM-08 REMINGTON NECK DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

This 7mm-08 Remington Two-Die Neck Die Set is for bottleneck cases to be fired in bolt-action rifles only—specifically, cases fired out of a specific rifle and neck-sized to go back into the same rifle. The set consists of a Neck Sizer Die with an Expander-Decapping Unit, and a Seater Die with Bullet Seater Plug. The Neck Sizer Die resizes the neck only (it doesn't touch the shoulder or body) and de-primers. The included Seater Die has a built-in roll crimper to secure the bullet at the same time it's seated.

# Safety Instruction Guide for 7MM08 Remington Neck Die Set

## Introduction

Thank you for choosing the 7MM08 Remington Neck Die Set by RCBS. This guide provides essential safety instructions and usage guidelines to ensure safe operation and compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

## General Safety Guidelines

- Always follow the manufacturer's instructions for the proper use of the die set.
- Store the die set in a dry and secure location, out of reach of children and pets.
- Inspect the die set for any damage before use. Do not use if damaged.
- Ensure that your workspace is clean and free from any distractions during operation.
- Wear appropriate personal protective equipment, such as safety glasses, when using the die set.
- Keep your hands and clothing clear of moving parts during operation.

## Specific Safety Precautions for Use

- Use the die set only for its intended purpose—neck sizing bottleneck cases for boltaction rifles.
- Do not attempt to resize cases fired from different rifles with the same die set.
- Avoid using excessive force when resizing cases; this may cause damage to the die or cases.
- Be aware of the potential for lead exposure; wash hands thoroughly after handling ammunition components.
- Ensure that the workspace is wellventilated to avoid inhaling any dust or particles generated during use.

## Instructions for Installation and Usage

### 1. Setup:

- Place the Neck Sizer Die into the reloading press as per the manufacturer's instructions.
- Secure the die tightly to prevent movement during operation.

### 2. Neck Sizing:

- Insert the case into the Neck Sizer Die.
- Pull the handle of the press to resize the neck of the case.
- The die will also deprime the case during this process.

### 3. Seating Bullets:

- Replace the Neck Sizer Die with the Seater Die in the press.
- Adjust the Seater Die to the desired bullet seating depth according to your specifications.
- Place the bullet on top of the case and pull the handle to seat the bullet securely.

### 4. Crimping:

- The Seater Die includes a builtin roll crimper. Ensure that the crimper is properly adjusted to secure the bullet as it is seated.

### 5. Final Inspection:

- After completing the reloading process, inspect each round for proper seating and crimping.

- Store completed ammunition in a safe and secure manner.

## **Disposal Instructions**

- Dispose of any damaged or unusable components in accordance with local regulations.
- Do not dispose of ammunition in regular household waste. Follow local guidelines for hazardous waste disposal.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please reach out to your local RCBS distributor or retailer. They will provide you with the necessary support and information regarding the product.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with the 7MM08 Remington Neck Die Set. Always prioritize safety and compliance with regulations to protect yourself and others during the reloading process.
