

5.7X28MM SMALL BASE DIE SET - RCBS 5.7X28MM SMALL BASE DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

This two-die set is for 5.7x28mm cases used in tight-chambering semi-automatic, pump or lever-action rifles. It consists of a Small Base Sizer with an Expander-Decapping Unit and Regular Seater Die with Seater Plug. The sizer resizes cases below SAAMI minimums, reducing the shoulder and body by a few thousandths. It also de-primers the case. The included Seater Die has a built-in roll crimping to secure the bullet at the same time it's seated. To seat bullets without crimping, simply unscrew the die until the crimp ring no longer engages the case mouth.

Attributes

- Name: [RCBS 5.7X28MM SMALL BASE DIE SET](#)
- Manufacturer: [RCBS](#)
- Product no.: 100060901

5.7X28MM Small Base Die Set Safety Instructions

Introduction

Thank you for choosing the RCBS 5.7X28MM Small Base Die Set. This product is designed for safe and efficient reloading of 5.7x28mm cases used in tightchambering semiautomatic, pump, or leveraction rifles. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the die set out of reach of children and vulnerable individuals.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment.
- Inspect the die set for any damage before use. Do not use if damaged.
- Follow all local laws and regulations regarding reloading and ammunition.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware of potential hazards such as:
 - Injury from sharp edges or moving parts.
 - Risks associated with handling ammunition components.
- **Depriming Safety:** When depriming cases, ensure that the die is securely mounted and that your hands are clear of the die's moving parts.
- **Crimping Precautions:** If using the roll crimper feature, ensure that the bullet is properly seated before crimping to avoid misfires or damage.
- **Ventilation:** Always work in a wellventilated area to avoid inhaling any fumes from the reloading process.
- **Storage:** Store the die set in a cool, dry place when not in use to prevent rust and damage.

Instructions for Installation and Usage

1. Setup:

- Securely mount the Small Base Sizer Die into your reloading press according to the manufacturer's instructions.
- Attach the ExpanderDecapping Unit to the sizer die.
- Insert the Regular Seater Die with Seater Plug into the press for bullet seating.

2. Resizing Cases:

- Insert a 5.7x28mm case into the sizer die.
- Operate the press to resize the case, ensuring it is below SAAMI minimums.
- Remove the deprimed case and inspect for any defects.

3. Seating Bullets:

- Place the bullet into the case mouth.
- Operate the press to seat the bullet using the Regular Seater Die.
- If crimping is desired, ensure the crimp ring engages the case mouth; otherwise, adjust the die accordingly.

4. Cleaning:

- Clean the die set regularly to remove any residue or debris.
- Use a soft cloth and appropriate cleaning solutions to avoid damaging the dies.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Recycle materials where possible, such as metal and plastic from packaging.

Contact Information for Further Support

For any questions or concerns regarding the RCBS 5.7X28MM Small Base Die Set, please reach out to the manufacturer or your local distributor for assistance. Ensure that you have the product information ready when seeking support.

By following these safety instructions, you can ensure a safe and effective reloading experience. Thank you for your attention to safety and compliance with the EU GPSR.
