Safety Instruction Guide for LEE Precision 308 Winchester Loader

Introduction

Thank you for choosing the LEE Precision 308 Winchester Loader. This product is designed for individuals interested in reloading ammunition safely and efficiently. Please read this safety instruction guide carefully to ensure safe use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always follow the manufacturer's instructions when using the loader.
- Ensure that you are familiar with the reloading process before starting.
- Keep the loader and all components out of reach of children.
- Use the loader in a wellventilated area to avoid inhalation of dust or fumes.
- Wear appropriate safety gear, including safety glasses and gloves, while reloading.
- Never exceed the recommended load data provided with the product.
- Ensure that the workspace is clean and free of distractions while reloading.
- Regularly inspect all components for wear or damage before use.

Specific Safety Precautions for Use

• Hazard Identification:

- Risk of injury from improper handling of the loader.
- Potential for accidental discharge if not used properly.
- Danger of exposure to lead and other materials during the reloading process.

• Avoiding Hazards:

- Always use the loader as intended and follow all instructions.
- Do not use any components that are damaged or worn.
- Ensure that the workspace is secure and that no unauthorized persons are present during the reloading process.
- Be mindful of your surroundings and ensure that no one is in the line of fire.
- Store all materials, including primers and powders, in a safe and secure location.

• Audience Specific Warnings:

- This product is not intended for use by individuals under the age of 18.
- Ensure that only trained individuals handle the loader and perform reloading operations.

Instructions for Installation and Usage

• Installation:

1. Place the loader on a stable, flat surface.
2. Ensure that all components are present and in good condition.
3. Follow the included instructions to assemble the loader if necessary.

• Usage:

1. Prepare your workspace by gathering all necessary materials, including brass casings, bullets,

primers, and powder.

2. Ensure that the hammer (not included) is available for use.
3. Follow the load data provided to determine the appropriate powder charge for your reloads.
4. Insert the brass casing into the neck sizing die and size the neck.
5. Decap the casing using the decapping chamber.
6. Insert a new primer using the primer rod.
7. Measure the powder charge using the powder measure and pour it into the casing.
8. Seat the bullet using the bullet seater.
9. Inspect the completed round for quality and safety.
10. Store completed rounds in a safe and secure manner.

Disposal Instructions

- Dispose of any unused components, including primers and powders, in accordance with local regulations.
- Do not throw away reloading materials in regular household waste.
- Contact local authorities for information on hazardous waste disposal if needed.

Conclusion

By following the guidelines and instructions outlined in this safety instruction guide, you can ensure safe and effective use of the LEE Precision 308 Winchester Loader. Always prioritize safety and compliance with regulations during the reloading process.
