PACESETTER RIFLE THREEDIE SET SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the PACESETTER RIFLE THREEDIE SET by LEE PRECISION. This comprehensive guide is designed to provide essential safety instructions and usage guidelines to ensure your safe and effective reloading experience with the 3040 Krag cartridge.

General Safety Guidelines

- Always read and understand these safety instructions before using the product.
- Keep the reloading area clean and organized to prevent accidents.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling reloading materials.
- Store reloading components and finished ammunition in a secure location, out of reach of children and unauthorized users.
- Be aware of local laws and regulations regarding ammunition reloading and storage.

Specific Safety Precautions for Use

- Ensure that your reloading press is compatible with the 7/8"14 thread size.
- Verify that all components of the die set are present and in good condition before use.
- Avoid overloading cartridges beyond recommended specifications to prevent malfunctions.
- Do not use damaged or worn dies, as they may cause unsafe reloading conditions.
- Always doublecheck powder measurements and bullet seating depths to ensure accuracy.
- Keep all materials, including powders and primers, away from heat sources and open flames.
- Never leave reloading equipment unattended while in use.

Instructions for Installation and Usage

1. Setup of the Reloading Press

- Securely attach the reloading press to a stable workbench or surface.
- Ensure that the press is correctly aligned and tightened to prevent movement during operation.

2. Installation of the Die Set

- Install the Full Length Sizing Die into the press by threading it into the appropriate position.
- Follow with the Bullet Seating Die and finally the Factory Crimp Die, ensuring each is tightened securely.

3. Using the Universal Shell Holder

- Insert the shell holder into the ram of the press, ensuring it is properly seated.
- Confirm that it fits the 3040 Krag cartridge securely.

4. Powder Dipper Usage

- Use the provided powder dipper to measure the appropriate amount of powder for each cartridge.
- Ensure that the powder is suitable for the 3040 Krag and within recommended load data.

5. Loading Cartridges

- Place a casing into the shell holder and pull the handle to resize the casing using the Full Length Sizing Die.
- Remove the casing and add the measured powder using the powder dipper.
- Insert the bullet into the casing and use the Bullet Seating Die to seat the bullet to the correct depth.
- Finally, use the Factory Crimp Die to crimp the bullet securely in place.

6. Final Inspection

- Inspect each cartridge for proper seating and crimping before storing or using.

Disposal Instructions

- Dispose of any unused or expired reloading materials following local regulations.
- Store hazardous materials in accordance with safety guidelines to prevent environmental contamination.
- Do not dispose of reloaded ammunition in regular trash; follow local laws for hazardous waste disposal.

Contact Information for Further Support

For any safety inquiries or concerns regarding the use of the PACESETTER RIFLE THREEDIE SET, please refer to the manufacturer's website or contact your local distributor.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective reloading experience with your PACESETTER RIFLE THREEDIE SET. Always prioritize safety and compliance with local regulations during your reloading activities. Happy reloading!
