

AR SERIES SMALL BASE TAPER CRIMP DIE SETS - RCBS 6.5MM CREEDMOOR FULL LENGTH DIE SET

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

A must for the progressive reloader. The RCBS AR Series Die Set features a Small Base sizing die and a Taper Crimp seating die. This combination makes reloading easier for AR-style or semi-auto shooters. The Small Base sizer guarantees that the cartridge will rechamber. The Taper Crimp Seater is more forgiving when various case lengths are loaded at the same time. Case neck crimp bulges and buckled shoulders are virtually eliminated when Taper crimping is used with cannelured bullets.

Safety Instruction Guide for RCBS AR Series Small Base Taper Crimp Die Sets

Introduction

Thank you for choosing the RCBS AR Series Small Base Taper Crimp Die Sets for your reloading needs. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this manual thoroughly before use to understand the necessary precautions and instructions.

General Safety Guidelines

- Ensure that all reloading equipment is used in accordance with the manufacturer's instructions.
- Always wear appropriate safety gear, including safety glasses, when handling reloading equipment.
- Keep reloading tools and components out of reach of children and unauthorized users.
- Be aware of and comply with local laws and regulations regarding reloading and ammunition.
- Regularly inspect your reloading equipment for signs of wear or damage before each use.
- Report any unsafe products or accidents to the relevant authorities immediately.

Specific Safety Precautions for Use

- Use only the recommended cartridge for this die set: 6.5 Creedmoor.
- Do not exceed the maximum load specifications provided in reputable reloading manuals.
- Ensure that the work area is wellventilated and free from distractions while reloading.
- Avoid using damaged or worn components as this may lead to malfunctions or accidents.
- Always doublecheck that the die is properly secured in the reloading press before use.
- When using the Taper Crimp Seater, ensure that the bullet is properly seated to prevent misfires or jams.

Instructions for Installation and Usage

1. Installation

- Ensure the reloading press is securely mounted on a stable surface.
- Remove the die from its packaging and inspect for any damage.
- Install the Small Base sizing die into the press by screwing it into the die holder until secure.
- Install the Taper Crimp seating die in the same manner.

2. Usage

- Begin by resizing the brass cases using the Small Base sizing die:
 - Insert the brass case into the sizing die.
 - Operate the press to resize the case fully.
 - Remove the resized case and inspect it for any defects.
- Next, proceed to seat the bullets:
 - Place the bullet into the case mouth.
 - Insert the case into the Taper Crimp seating die.
 - Operate the press to seat the bullet to the desired depth, ensuring proper crimping.
- Always check the overall length of the loaded cartridges to meet specifications.

Disposal Instructions

- Dispose of any damaged or unusable reloading components in accordance with local regulations.
- Do not throw away used primers or powder in regular trash; follow hazardous waste disposal guidelines.
- Ensure that all packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For safety inquiries, please refer to the manufacturer's website or contact your local distributor for assistance.

By following these safety guidelines and instructions, you can ensure a safe and efficient reloading experience with the RCBS AR Series Small Base Taper Crimp Die Sets. Thank you for prioritizing safety in your reloading practices.
