

AR SERIES SEATER DIES - RCBS AR SERIES TAPER CRIMP SEATER DIE 30 REM AR

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

A must for the progressive reloader. The RCBS Taper Crimp Seater is more forgiving when various case lengths are loaded at the same time. Case neck crimp bulges and buckled shoulders are virtually eliminated when Taper crimping is used with cannellured bullets.

Safety Instruction Guide for AR Series Taper Crimp Seater Die 30 Rem AR

Introduction

Thank you for choosing the RCBS AR Series Taper Crimp Seater Die for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the die.

General Safety Guidelines

- Ensure that you are familiar with the reloading process and the specific requirements for the 30 Remington AR cartridge.
- Always wear appropriate safety gear, including safety glasses and hearing protection, when using reloading equipment.
- Keep the workspace clean and organized to prevent accidents.
- Store all reloading components, including dies, powders, and primers, in a secure location away from children and pets.
- Regularly inspect the die for any signs of wear or damage before each use.

Specific Safety Precautions for Use

- Use only the recommended cartridge types with this die to avoid malfunctions or accidents.
- Always follow the manufacturer's guidelines for load data and reloading techniques.
- Avoid using excessive force when adjusting the die; this can lead to damage or malfunction.
- Be cautious of crimping too tightly, which can cause case neck bulges or buckled shoulders.
- Ensure that the die is properly secured in the press before use.

Instructions for Installation and Usage

1. Installation

- Clean the die and ensure that it is free from debris.
- Securely attach the die to your reloading press according to the manufacturer's instructions.
- Adjust the die height to match the specifications for the 30 Remington AR cartridge.

2. Usage

- Insert a properly sized case into the reloading press.
- Follow the reloading process as per your chosen method, ensuring that the bullet is seated correctly.
- Utilize the taper crimp feature to secure the bullet in place. Adjust the crimping depth as necessary to avoid case neck bulges.
- Inspect each completed round for uniformity and safety before storage or use.

Disposal Instructions

- Dispose of any damaged or worn dies in accordance with local regulations.
- Recycle materials when possible, following local guidelines for metal and plastic disposal.
- Ensure that all reloading components, such as spent primers and powder, are disposed of safely and responsibly.

Contact Information for Further Support

For any questions or concerns regarding the RCBS AR Series Taper Crimp Seater Die, please refer to the manufacturer's contact information provided with your product.

Conclusion

Following these safety guidelines will help ensure that your experience with the RCBS AR Series Taper Crimp Seater Die is safe and successful. Always prioritize safety and stay informed about best practices in reloading. Thank you for your attention to these important instructions.
