HTP (HIGH TEMPERATURE PYTHON) SUPPRESSOR COVER SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the ColeTAC High Temperature Python (HTP) Suppressor Cover. This product is designed to provide protection for your suppressor while withstanding extreme temperatures. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the suppressor cover is used only with suppressors that are compatible and within the specified temperature range.
- Always follow the manufacturer's guidelines for your suppressor and any associated equipment.
- Keep the suppressor cover out of reach of children and vulnerable individuals.
- Regularly inspect the suppressor cover for signs of wear, damage, or degradation.
- If you notice any damage, discontinue use and replace the cover immediately.

Specific Safety Precautions for Use

- **High Temperature Use:** The HTP Suppressor Cover is rated for temperatures up to 3000°F. Avoid using it in conditions that exceed this limit.
- **Fire Resistance:** While the cover is fireresistant, it is not fireproof. Avoid direct contact with open flames or extreme heat sources.
- **Water Resistance:** The cover is waterresistant but not waterproof. Avoid prolonged exposure to water.
- **Secure Fit:** Ensure that the cover is securely fitted to the suppressor using the BOA locking straps before use.
- **Avoid Abrasive Surfaces:** Do not drag the suppressor cover on rough surfaces to prevent abrasion and wear.

Instructions for Installation and Usage

1. Installation:

- Ensure that the suppressor is cool to the touch before installing the cover.
- Slide the suppressor cover over the suppressor, ensuring a snug fit.
- Use the BOA locking straps to secure the cover in place. Adjust the straps as necessary to achieve a secure fit.
- Check that the cover is properly aligned and that there are no loose areas.

2. Usage:

- Use the suppressor cover only in environments that comply with the temperature ratings.
- Monitor the suppressor temperature during use. If it exceeds safe limits, allow it to cool before continuing.
- After use, allow the suppressor cover to cool before removing it.
- Store the suppressor cover in a cool, dry place when not in use.

Disposal Instructions

- Dispose of the suppressor cover in accordance with local regulations for textile and plastic waste.
- Do not burn the cover, as it may release harmful substances.
- If the cover is damaged beyond repair, consider recycling materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the use of the HTP Suppressor Cover, please contact the manufacturer directly. Ensure that you have the product details available for reference.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your ColeTAC High Temperature Python (HTP) Suppressor Cover. Regular maintenance and vigilance will help extend the life of the product and enhance your shooting experience. Thank you for your attention to safety.
