# HTP (HIGH TEMPERATURE PYTHON) SUPPRESSOR COVER SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the ColeTAC High Temperature Python (HTP) Suppressor Cover. This product is designed to enhance your shooting experience while providing protection against extreme temperatures. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure safe use of the suppressor cover in accordance with the EU General Product Safety Regulation (GPSR).
- Always inspect the suppressor cover for any signs of damage before use.
- Do not use the suppressor cover if it is damaged or compromised.
- Follow all manufacturer instructions for installation and use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **High Temperature Warning:** The HTP Suppressor Cover is rated for temperatures up to 3000°F. Avoid direct contact with the cover during and immediately after use.
- **Proper Fit:** Ensure that the suppressor cover is securely attached to the suppressor using the BOA locking straps to prevent it from slipping during use.
- **Avoid Flammable Materials:** Keep the suppressor cover away from flammable materials and environments.
- **Check for Mildew:** Regularly inspect the cover for signs of mildew or wear, especially if stored in humid conditions.
- **Do Not Alter:** Do not modify or alter the suppressor cover in any way, as this can compromise safety and effectiveness.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the suppressor is clean and free of debris.
- Slide the HTP Suppressor Cover over the suppressor, ensuring a snug fit.
- Use the BOA locking straps to secure the cover in place. Adjust the straps for a comfortable fit, ensuring they are tight enough to prevent slipping but not so tight as to damage the material.
- Check that the cover is properly aligned and does not obstruct any operational components of the suppressor.

### 2. Usage:

- Always wear appropriate protective gear, including eye and ear protection, when using firearms.
- Monitor the suppressor cover during use to ensure it remains secure.
- Allow the suppressor to cool down before removing the cover after use.
- Clean the suppressor cover as needed, following the manufacturer's recommendations for care.

## **Disposal Instructions**

- Dispose of the suppressor cover in accordance with local regulations.
- If the cover is damaged beyond repair, consider recycling materials where possible.
- Do not burn the suppressor cover, as it may release harmful substances.

## **Contact Information for Further Support**

For any questions or concerns regarding the HTP Suppressor Cover, please refer to the manufacturer's website or customer support resources for assistance. Ensure that you have your product details on hand for the most efficient service.

Thank you for prioritizing safety and compliance with the EU GPSR. Enjoy your shooting experience with the ColeTAC High Temperature Python (HTP) Suppressor Cover!
