## Improves Control, Gives Positive Grip To Seat Rings & Bases "Just Right"

**BONDHUS FIXED BLADE TORX DRIVERS** The Bondhus Fixed Blade Torx® Drivers are precision-engineered tools designed for gunsmiths and firearm enthusiasts requiring reliable Torx screw engagement. Each driver features a one-piece, hardened steel shaft that provides exceptional strength and reach, ensuring durability during demanding tasks. The tough, fluted handle offers a solid grip and excellent control, enhancing user comfort and efficiency. Notably, the ball-head design allows the driver to be held at an angle of up to 25° off-axis while still maintaining a secure grip on the screw, preventing slippage and potential damage. These drivers are particularly suitable for scope ring and base screws from brands like Brownells, Burris, and Leupold.

**Key Features:**

- Hardened Steel Construction:** The one-piece steel shaft ensures exceptional strength and longevity, accommodating the rigorous demands of gunsmithing tasks.
- Fluted Handle Design:** The tough, fluted handle provides a comfortable and secure grip, allowing for precise control during use.
- Ball-Head Functionality:** Enables the driver to be held up to 25° off-angle while still gripping the screw tightly, reducing the risk of slipping and screw damage.
- Scope Compatibility:** Ideal for adjusting scope ring and base screws from manufacturers such as Brownells, Burris, and Leupold.

**Specifications:**

- Model T-10: Overall Length: 5 inches (12.7 cm) Shank Length: 2¾ inches (7 cm)
- Model T-15: Overall Length: 5½ inches (14 cm) Shank Length: 2? inches (7.3 cm)

**Customer Insights:** Our customers commend the Bondhus Fixed Blade Torx Drivers for their robust construction and ergonomic design. The hardened steel shaft and fluted handle provide both durability and comfort, making them suitable for extended use. The ball-head feature is particularly appreciated, as it allows for effective screw engagement even at challenging angles, thereby preventing slippage and potential damage to screws. These drivers are considered indispensable tools for precise firearm maintenance and adjustments. Incorporating the Bondhus Fixed Blade Torx Drivers into your gunsmithing toolkit ensures reliable performance and precision when working with Torx® screws. Their specialized design and high-quality construction make them essential for maintaining and customizing your firearms with confidence.

# Safety Instruction Guide for Bondhus Fixed Blade Torx Drivers

## Introduction

Thank you for choosing the Bondhus Fixed Blade Torx Drivers. These precisionengineered tools are designed for gunsmiths and firearm enthusiasts. This safety instruction guide provides essential information to ensure the safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that all tools are used according to the manufacturer's instructions.
- Always inspect the tool for damage before use. Do not use if damaged.
- Keep the tools out of reach of children and other vulnerable individuals.
- Use the tools only for their intended purpose to avoid accidents.
- Store the tools in a dry and safe place when not in use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed.

## Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):**

- Always wear safety glasses to protect your eyes from debris.
- Use gloves to maintain a firm grip and protect your hands while using the tools.

- **Handling and Usage:**

- Hold the driver firmly by the handle to prevent slipping.
- Avoid excessive force when using the driver to prevent damage to the screw or tool.
- Do not use the driver at an angle greater than 25° unless necessary, as this may affect grip and control.

- **Environment:**

- Use the tools in a welllit area to enhance visibility.
- Ensure the work surface is stable and secure to prevent accidents.

## Instructions for Installation and Usage

### 1. Selecting the Right Tool:

- Choose the appropriate model based on the screw size. The Bondhus Fixed Blade Torx Drivers are available in T10 and T15 models.

### 2. Using the Driver:

- Insert the Torx driver into the screw head, ensuring a snug fit.
- Apply gentle pressure and turn the driver clockwise to tighten or counterclockwise to loosen the screw.
- If using the ballhead design, maintain a firm grip while working at an angle.

### 3. Finishing Up:

- Once the task is complete, remove the driver from the screw head carefully.
- Clean the driver with a dry cloth to remove any debris or moisture.

## **Disposal Instructions**

- Dispose of the tool responsibly according to local regulations.
- Do not dispose of the tool in regular household waste.
- Consider recycling options available in your area for metal tools.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product information, please reach out to the manufacturer or authorized distributors. Ensure you have the model number and relevant details available for efficient assistance.

By following these guidelines, you can ensure a safe and effective experience with your Bondhus Fixed Blade Torx Drivers. Thank you for your commitment to safety and quality in your firearms maintenance and adjustments.
