## Lowers The Pistol In Your Hand; Contact Pad Assures Engagement

Lowers the pistol deeper into your hand for less felt recoil and more comfortable, more accurate shooting. Raised contact pad increases engagement and helps ensure proper safety operation for shooters that use a high-thumb hold.

# 1911 Beavertail Grip Safety User Manual

## Introduction

Thank you for choosing the 1911 Beavertail Grip Safety. This product is designed to enhance your shooting experience by providing a deeper grip and improved safety mechanisms. Please read this manual carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Keep your finger off the trigger until you are ready to shoot.
- Always point the firearm in a safe direction.
- Store your firearm and ammunition securely, away from children and unauthorized users.
- Regularly inspect your firearm and accessories for wear and damage.
- Follow all local laws and regulations regarding firearm ownership and use.

## Specific Safety Precautions for Use

- Ensure that the pistol is unloaded before installing or modifying the grip safety.
- Do not attempt to modify the grip safety unless you have the necessary skills and tools.
- Always check the fit of the grip safety with your specific 1911 model (Government, Commander, Officers) before use.
- If you experience any malfunction or failure to operate, cease use immediately and consult a qualified gunsmith.
- Be aware that modifications may affect the safety and reliability of your firearm.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools: screwdriver, wrench, and any specific tools required for your firearm model.

### 2. Installation Steps

- Remove the existing grip safety from your 1911 pistol.
- Align the new 1911 Beavertail Grip Safety with the frame of your pistol.
- Secure the grip safety in place using the appropriate screws and tools.
- Ensure that the raised contact pad is properly engaged for safety operation.
- Test the grip safety by pulling the trigger while holding the grip. The trigger should not engage unless the grip safety is fully depressed.

### 3. Usage

- Grip the pistol firmly with your dominant hand, ensuring that your thumb is positioned high on the grip.
- The raised contact pad should engage when you apply pressure with your thumb.
- Practice safe handling and shooting techniques at a shooting range or designated area.

## **Disposal Instructions**

- Dispose of any old or damaged grip safety components in accordance with local regulations.
- Do not discard firearms or firearm components in regular household waste.
- Contact local waste management authorities for guidance on safe disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the 1911 Beavertail Grip Safety or its installation, please refer to your local firearms dealer or manufacturer's support services.

## **Conclusion**

Your safety is paramount. By following these guidelines and instructions, you can ensure a safer and more enjoyable shooting experience. Thank you for choosing the 1911 Beavertail Grip Safety.
