Top & Side Fold Models Adapt To Your Tactical Application

Impact-resistant, high strength, Zytel stock with solid steel, mounting block folds at the hinge to provide compact carry and transportation of your 12-gauge, tactical shotgun. Improves maneuverability in close quarter, combat zones and withstands blows that would shatter less durable stock materials. M16-style pistol grip improves muzzle control; diamond-cut checkering molded into the grip ensures a positive hold, wet or dry. Includes two, fixed loops for sling or lanyard attachment. Side Fold stock pivots horizontally; folds to the side by pushing it downward to unlock the hinge. Must be used with short, combat forend included with buttstock. 1" pad helps tame heavy recoil and keeps buttstock planted in your shoulder.
